PROJECT TITLE: Repair Ledson Marsh Dam

LOCATION: Annadel State Park

COUNTY: Sonoma

DESCRIPTION OF THE NATURE AND PURPOSE OF PROJECT: Stabilize and restore Ledson Marsh Dam to protect a 30 acre marsh at Annadel State Park. Remove 3 cubic yards of blue shale and over 200 sand bags from the dam area. Repair and reinforce the damaged face of the dam. Fill in and repair sinkholes along damaged sections of the 300 foot long dam. Restore and regrade the side overflow channels. Import and place and compact fill (approximately 600 cubic yards) to restore the top of the dam and return it to its historic elevation. All work will avoid impacts to nesting birds and California red legged frogs. Temporal and physical constraints will be observed and a biological monitor will be on site during all phases of construction to ensure no sensitive species are present in the construction area.
