Proposition 84
Statewide Park Program – Round One

City of Santa Rosa, Parks $4,833,467

Bayer Neighborhood Park and Gardens

This project will create the new Bayer Neighborhood Park and Gardens in the City of Santa Rosa through construction of a new central plaza, community garden, garden walking paths, seat walls and bridges, open space turf areas, exercise stations, community hall, outdoor kitchen/picnic pavilion/kiosk, lighting, fencing, and landscaping.

Through community based planning meetings, youth, seniors, and families selected these features. Additional design ideas from residents to be included in the project are:

- Maintain a farm theme by preserving the barn, create a livestock area, and community gardens. Locate gardens and farm animals area near the existing barn.
- Community garden harvest and farm stand to provide healthy food. Create outdoor cultural ovens.
- Create a Mexican style zocalo/placita (main square) in middle of park and construct a small amphitheater. Create a drop-off zone for vehicles.
- Include a nature play zone for children. Place exercise course and stations and other play structures along park's exterior to enhance the streetscape, and place passive elements in the interior for a peaceful and natural place.
- For park beautification, construct wood fencing with cultural art planks, add more trees and preserve existing trees, include native plantings and landscaping throughout the park to blend recreation and garden areas, and create an orchard.
- 175 youth from YouthBuild, Roseland University Prep H.S., and Elsie Allen H.S. will help create the park.

The project will include these sustainable techniques:

- Collect and store runoff for irrigation. Use pervious concrete, D.G., permeable pavers, grass pave system, and create vernal pools.
- Re-use & salvage materials from existing structures; at least 10% of new construction materials will be from recycled sources.
- Use drought tolerant, non-invasive, native plants & preserve special status trees.
- Use low flow plumbing fixtures, natural light and ventilation for new structures, and all major structures will have photovoltaic systems on the roof.

The park will be open daily from dawn to dusk. No entrance or membership fees will be charged to use the park and gardens.

Leyenda

1. Jardín comunitario y enseñanza
2. Farm stand
3. Acopio de área
4. jardín del habitat
5. La naturaleza basó área de juego
6. Invernadero
7. Casa del torno
8. Zona del proyecto del estiércol vegetal y de la granja
9. Comodidades de los vigilantes
