

**WATER QUALITY, SAFETY AND SUPPLY.
 FLOOD CONTROL. NATURAL RESOURCE PROTECTION.
 PARK IMPROVEMENTS. BONDS. INITIATIVE STATUTE.**

- Funds projects relating to safe drinking water, water quality and supply, flood control, waterway and natural resource protection, water pollution and contamination control, state and local park improvements, public access to natural resources, and water conservation efforts.
- Provides funding for emergency drinking water, and exempts such expenditures from public contract and procurement requirements to ensure immediate action for public safety.
- Authorizes \$5,388,000,000 in general obligation bonds to fund projects and expenditures, to be repaid from the state's General Fund.

Summary of Legislative Analyst's Estimate of Net State and Local Government Fiscal Impact:

- State cost of about \$10.5 billion over 30 years to pay off both the principal (\$5.4 billion) and interest (\$5.1 billion) costs on the bonds. Payments of about \$350 million per year.
- Reduction in local property tax revenues of several million dollars annually.
- Unknown costs, potentially tens of millions of dollars per year, to state and local governments to operate or maintain properties or projects acquired or developed with these bond funds.

★ ★ ★ ANALYSIS BY THE LEGISLATIVE ANALYST

BACKGROUND

State Spending on Resources Programs. The state operates a variety of programs to conserve natural resources, protect the environment, provide flood control, and offer recreational opportunities for the public. The state also operates a program to plan for future water supplies, flood control, and other water-related requirements of a growing population. In addition to direct state expenditures, the state also provides grants and loans to local governments and nonprofit organizations for similar purposes. These programs support a variety of specific purposes, including:

- **Natural Resource Conservation.** The state has provided funds to purchase, protect, and improve natural areas—including wilderness and open-space areas; wildlife habitat; coastal wetlands; forests; and rivers, lakes, streams, and their watersheds.
- **Safe Drinking Water.** The state has made loans and grants to public water systems for facility improvements to meet state and federal safe drinking water standards.
- **Flood Control.** The state has funded the construction and repair of flood control projects in the state Central Valley flood control system. The state has also provided financial assistance to local agencies for local flood control projects in the Sacramento-San Joaquin River Delta and in other areas outside the Central Valley.
- **Other Water Quality and Water Supply Projects.** The state has made available funds for various other projects throughout the state that improve water quality and/or the reliability of water supplies. For example, the state has provided loans and grants to local agencies for the construction and implementation of wastewater treatment, water conservation, and water pollution reduction projects.

- **State and Local Parks.** The state operates the state park system and has provided funds to local governments for the acquisition, maintenance, and operation of local and regional parks.

Funding for Resources Programs. Funding for these various programs has traditionally come from General Fund revenues, federal funds, and general obligation bonds. Since 1996, voters have authorized approximately \$11 billion in general obligation bonds for various resources purposes. Of this amount, approximately \$1.4 billion is projected to remain available for new projects as of June 30, 2006, primarily for water-related purposes. Legislation enacted earlier this year provides \$500 million from the General Fund for emergency levee repairs and other flood control-related expenditures.

PROPOSAL

This initiative allows the state to sell \$5.4 billion in general obligation bonds for safe drinking water, water quality, and water supply; flood control; natural resource protection; and park improvements. (See “An Overview of State Bond Debt” on page 96 for basic information on state general obligation bonds.) Figure 1 (see next page) summarizes the purposes for which the bond money would be available for expenditure by various state agencies and for loans and grants, primarily to local agencies and nonprofit organizations. In order to spend most of these bond funds, the measure requires the Legislature to appropriate them in the annual budget act or other legislation.

FISCAL EFFECTS

Bond Costs. The cost of these bonds would depend on interest rates in effect at the time they

Statewide Water Planning	\$65
<ul style="list-style-type: none"> • Planning for future water needs, water conveyance systems, and flood control projects. 	65
Total	\$5,388

★★★ ANALYSIS BY THE LEGISLATIVE ANALYST (CONTINUED)

are sold and the time period over which they are repaid. The state would likely make principal and interest payments from the state's General Fund over a period of about 30 years. If the bonds were sold at an average interest rate of 5 percent, the cost would be about \$10.5 billion to pay off both the principal (\$5.4 billion) and interest (\$5.1 billion). The average payment would be about \$350 million per year.

Property Tax-Related Impacts. The initiative provides funds for land acquisition by governments and nonprofit organizations for various purposes. Under state law, property owned by government entities and by nonprofit organizations (under specified conditions) is exempt from property

taxation. To the extent that this initiative results in property being exempted from taxation due to acquisitions by governments and nonprofit organizations, local governments would receive reduced property tax revenues. We estimate these reduced property tax revenues would be several million dollars annually.

Operational Costs. State and local governments may incur additional costs to operate or maintain the properties or projects, such as new park facilities, that are purchased or developed with these bond funds. The amount of these potential additional costs is unknown, but could be tens of millions of dollars per year.

ARGUMENT IN FAVOR OF PROPOSITION 84

PROP. 84 PROTECTS CALIFORNIA'S WATER, LAND, AND COASTLINE.

California is growing rapidly, putting new pressure each year on our water resources, land, coast, and ocean. Prop. 84 protects these vital natural resources, which are essential to our health, our economy, and our quality of life.

YES on 84 PROTECTS DRINKING WATER QUALITY.

The water we drink and use to grow our food is vulnerable to contamination. Prop. 84 will:

- Remove dangerous chemicals from our water supply.
- Prevent future groundwater contamination.
- Prevent toxic runoff from flowing into our water.

Prop. 84 is essential to assure our communities **CLEAN, SAFE DRINKING WATER.**

Last year, there were more than 1,200 beach closing or advisory days in California. Prop. 84 will help prevent toxic pollution from storm drains from contaminating coastal waters and endangering public health.

YES on 84 ASSURES A RELIABLE WATER SUPPLY.

Prop. 84 will increase the reliability of California's water supply, through conservation and other programs. Every region in the state will benefit from this measure, while being given local control over specific projects to improve local water supply and water quality.

YES on 84 PROTECTS OUR COASTLINE AND CALIFORNIA'S NATURAL BEAUTY.

The measure will help clean and safeguard the ocean and beaches all along California's coastline, including the San Diego, Santa Monica, Monterey, and San Francisco Bays. It will also provide for safe neighborhood parks and protect the rivers and lakes in which we swim and fish.

YES on 84 PROTECTS AGAINST FLOODING.

An earthquake or a series of major storms could damage our state's levees, causing dangerous flooding and potentially leaving up to 23 million Californians without safe drinking water.

Efforts are underway to address this urgent threat to public safety and our water supply, but much more needs to be done. Flood control experts agree that Prop. 84 is an important step forward and complements ongoing efforts to improve flood control in California.

YES on PROP. 84 PROTECTS CALIFORNIA'S ECONOMY.

Clean beaches, rivers, and lakes are crucial to tourism, which contributes more than \$88 billion to the state economy each year and directly supports more than 900,000 jobs. An adequate supply of clean, safe water is also needed for California's farms and cities. Prop. 84 protects the water that our economy needs to thrive.

YES on 84 WILL NOT RAISE TAXES—AND INCLUDES TOUGH FISCAL SAFEGUARDS. Prop. 84:

- Is funded entirely from existing revenues and will *not* raise taxes.
- Will bring federal matching funds into California.
- Includes strict accountability provisions, including yearly independent audits and a citizen's oversight committee.

PLEASE JOIN US IN VOTING YES on 84.

Conservation groups, business organizations, and water districts across California support Prop. 84. For more information about the measure, please visit www.CleanWater2006.com. Your YES vote will help protect our health, economy, and quality of life now and in the years to come.

PROTECT CALIFORNIA'S DRINKING WATER, LAND, COAST, AND OCEAN. Vote YES on 84.

LARRY WILSON, Chair
Board of Directors, Santa Clara Valley Water District

E. RICHARD BROWN, Ph.D., Professor, School of Public Health, University of California, Los Angeles

REBUTTAL TO ARGUMENT IN FAVOR OF PROPOSITION 84

PROPOSITION 84 CANNOT DELIVER ON ITS PROMISES

It will not benefit everyone, but everyone will pay for it through higher taxes or budget cuts for education, law enforcement, and health services.

NO on 84 PROTECTS THE PUBLIC TREASURY

Prop. 84 gives state bureaucrats the power to spend your money without effective oversight. This proposal eliminates protections against corruption and favoritism in current law and it bypasses our competitive bidding system. It prevents audits by the State Controller, the State Auditor, and even the Legislative Analyst. It exempts itself from the Administrative Procedures Act. Ask yourself why the proponents fear routine audits.

NO on 84 SENDS SACRAMENTO THE RIGHT MESSAGE: WE NEED A RELIABLE WATER SUPPLY

This water bond does not contain ANY funds for new reservoirs, aqueducts, or water storage! The water diversions mandated by this bond will actually take away drinking water from current sources.

NO on 84 PROTECTS YOU FROM SPECIAL INTERESTS

Bond funds can be awarded to the same private organizations that placed this initiative on the ballot, campaigned for it, and bought advertising to promote it. This is a perversion of the initiative process.

NO on 84 SAVES MONEY FOR REAL FLOOD CONTROL

Flood control is vital, but less than 15% of bond funds are dedicated to that purpose—and that money could be chewed up for studies, environmental planning, environmental mitigation, and bureaucratic administration. If bureaucratic reports could stop flooding, we'd no longer have a problem.

PLEASE JOIN US IN VOTING NO on 84.

BILL LEONARD, Member
California State Board of Equalization

RON NEHRING, Senior Consultant
Americans for Tax Reform

LEWIS K. UHLER, President
National Tax Limitation Committee

ARGUMENT AGAINST PROPOSITION 84

This measure should have been titled the “Special-Interest-Hidden-Agenda Bond” because it was placed on the ballot by special interests who don’t really want you to know where all your money is going to be squandered. Every special interest that helped get this boondoggle on the ballot will get a share of the taxpayers’ money, but ordinary taxpayers will get nothing from this bond but higher taxes for the next three decades.

This so-called “water bond” has no funding for dams or water storage! The authors set aside billions for bureaucratic studies, unnecessary protections for rats and weeds, and other frivolous projects, but they couldn’t find a single penny to build freshwater storage for our state’s growing population. You have to read the text to believe it.

Only a very small portion of the funds from this enormous bond would be available for repair and maintenance of our levees, but Proposition 1E was placed on the ballot by the Legislature to provide \$4,090,000,000 for these same levees. Common sense dictates that we should wait to see how that money is spent before we authorize another \$5,388,000,000 in new spending. It would be foolish to lock permanent spending formulas in place, as this initiative seeks to do, when we have no idea what our future needs will be once the funds from Proposition 1E are spent.

This bond represents a huge tax increase. The proponents seem eager to avoid this unpleasant fact, but voters need to understand that bond repayment takes priority over all

other government spending. Once issued, bonds cannot be cancelled, repudiated, or discharged in bankruptcy; they can only be repaid with tax revenues. Our state already has a \$7 billion budget deficit, and there is no way to pay for this gigantic bond without higher taxes.

Local projects should be funded at the local level. This statewide bond is designed to force people in one part of the state to pay for local projects on the other side of the state. Why should people in Redding pay for urban parks in San Diego? Why tax people in Los Angeles to pay for beetle habitat restoration in Sutter County? This is poor tax policy, and it was clearly designed to benefit the special interests that put this measure on the ballot. We should expect local communities to fund their own local parks and improvements; statewide bonds should be reserved for state parks, colleges, and other capital projects that benefit the whole state.

What is worse, this bond allows unelected, unaccountable state bureaucrats to spend billions of dollars, with little or no real public oversight. Sacramento bureaucrats and special interests will love having a slush fund that they can spend without the need for public hearings and public votes in the Legislature—but we cannot allow that to happen.

Please join me in voting NO on Proposition 84.

BILL LEONARD, Member
 California State Board of Equalization

84

REBUTTAL TO ARGUMENT AGAINST PROPOSITION 84

The opponent’s argument is simply wrong. Proposition 84 provides clean water and protects our coast *without raising taxes*. It is supported by a broad, bipartisan coalition of public interest and business groups including the League of Women Voters of California, Los Angeles Area Chamber of Commerce, and The Nature Conservancy.

- Here are the facts.
- Prop. 84 funds crucial projects needed to assure reliable supplies of clean, safe drinking water.
 - Prop. 84 protects all of California’s waters: our rivers, lakes, streams, beaches, and bays.
 - Prop. 84 includes strict financial accountability, including a citizen oversight committee, annual independent audits, and full public disclosure.
 - Prop. 84 protects our families from toxic pollution, floods, and other hazards through critical public safety projects not funded by other measures.

YES on 84: BENEFITS ALL CALIFORNIANS
 Prop. 84 funds local priorities to improve water quality and supply in every region of the state.

YES on 84: SUPPORTED BY CALIFORNIA’S LOCAL WATER DISTRICTS

Proposition 84 is so important that water districts that provide drinking water to more than 23 million Californians all urge YES on 84.

YES on 84: PROTECTS PUBLIC HEALTH
 Prop. 84 removes dangerous contaminants from drinking water, cleans up toxic chemicals that contaminate the fish we eat, and keeps dangerous polluted runoff from flowing onto our beaches and into our coastal waters.

YES on 84 protects our land, water, and public health, for our families and for future generations.

Join local water districts, conservation organizations, business groups, and public health experts in voting YES on 84.

or she shall be unconditionally released and unconditionally discharged.

SEC. 30. Section 6608 of the Welfare and Institutions Code is amended to read:

6608. (a) Nothing in this article shall prohibit the person who has been committed as a sexually violent predator from petitioning the court for conditional release and subsequent or an unconditional discharge without the recommendation or concurrence of the Director of Mental Health. If a person has previously filed a petition for conditional release without the concurrence of the director and the court determined, either upon review of the petition or following a hearing, that the petition was frivolous or that the committed person's condition had not so changed that he or she would not be a danger to others in that it is not likely that he or she will engage in sexually violent criminal behavior if placed under supervision and treatment in the community, then the court shall deny the subsequent petition unless it contains facts upon which a court could find that the condition of the committed person had so changed that a hearing was warranted. Upon receipt of a first or subsequent petition from a committed person without the concurrence of the director, the court shall endeavor whenever possible to review the petition and determine if it is based upon frivolous grounds and, if so, shall deny the petition without a hearing. The person petitioning for conditional release and unconditional discharge under this subdivision shall be entitled to assistance of counsel.

(b) The court shall give notice of the hearing date to the attorney designated in subdivision (i) of Section 6601, the retained or appointed attorney for the committed person, and the Director of Mental Health at least 15 court days before the hearing date.

(c) No hearing upon the petition shall be held until the person who is committed has been under commitment for confinement and care in a facility designated by the Director of Mental Health for not less than one year from the date of the order of commitment.

(d) The court shall hold a hearing to determine whether the person committed would be a danger to the health and safety of others in that it is likely that he or she will engage in sexually violent criminal behavior due to his or her diagnosed mental disorder if under supervision and treatment in the community. If the court at the hearing determines that the committed person would not be a danger to others due to his or her diagnosed mental disorder while under supervision and treatment in the community, the court shall order the committed person placed with an appropriate forensic conditional release program operated by the state for one year. A substantial portion of the state-operated forensic conditional release program shall include outpatient supervision and treatment. The court shall retain jurisdiction of the person throughout the course of the program. At the end of one year, the court shall hold a hearing to determine if the person should be unconditionally released from commitment on the basis that, by reason of a diagnosed mental disorder, he or she is not a danger to the health and safety of others in that it is not likely that he or she will engage in sexually violent criminal behavior. The court shall not make this determination until the person has completed at least one year in the state-operated forensic conditional release program. The court shall notify the Director of Mental Health of the hearing date.

(e) Before placing a committed person in a state-operated forensic conditional release program, the community program director designated by the State Department of Mental Health shall submit a written recommendation to the court stating which forensic conditional release program is most appropriate for supervising and treating the committed person. If the court does not accept the community program director's recommendation, the court shall specify the reason or reasons for its order on the record. The procedures described in Sections 1605 to 1610, inclusive, of the Penal Code shall apply to the person placed in the forensic conditional release program.

(f) If the court determines that the person should be transferred to a state-operated forensic conditional release program, the community program director, or his or her designee, shall make the necessary placement arrangements and, within 21 days after receiving notice of the court's finding, the person shall be placed in the community in accordance with the treatment and supervision plan unless good cause for not doing so is presented to the court.

(g) If the court rules against the committed person at the trial for unconditional release from commitment, the court may place the committed person on outpatient status in accordance with the procedures described in Title 15 (commencing with Section 1600) of Part 2 of the Penal Code.

(h) If the court denies the petition to place the person in an appropriate forensic conditional release program or if the petition for unconditional discharge is denied, the person may not file a new application until one year has elapsed from the date of the denial.

(i) In any hearing authorized by this section, the petitioner shall have the burden of proof by a preponderance of the evidence.

(j) If the petition for conditional release is not made by the director of the treatment facility to which the person is committed, no action on the petition shall be taken by the court without first obtaining the written recommendation of the director of the treatment facility.

(k) Time spent in a conditional release program pursuant to this section shall not count toward the term of commitment under this article unless the person is confined in a locked facility by the conditional release program, in which case the time spent in a locked facility shall count toward the term of commitment.

SEC. 31. Intent Clause

It is the intent of the People of the State of California in enacting this measure to strengthen and improve the laws that punish and control sexual offenders. It is also the intent of the People of the State of California that if any provision in this act conflicts with any other provision of law that provides for a greater penalty or longer period of imprisonment the latter provision shall apply.

SEC. 32. Severability Clause

If any provision of this act, or part thereof, is for any reason held to be invalid or unconstitutional, the remaining provisions shall not be affected, but shall remain in full force and effect, and to this end the provisions of this act are severable.

SEC. 33. Amendment Clause

The provisions of this act shall not be amended by the Legislature except by a statute passed in each house by rollcall vote entered in the journal, two-thirds of the membership of each house concurring, or by a statute that becomes effective only when approved by the voters. However, the Legislature may amend the provisions of this act to expand the scope of their application or to increase the punishments or penalties provided herein by a statute passed by majority vote of each house thereof.

PROPOSITION 84

This initiative measure is submitted to the people in accordance with the provisions of Article II, Section 8, of the California Constitution.

This initiative measure adds sections to the Public Resources Code; therefore, new provisions proposed to be added are printed in *italic type* to indicate that they are new.

PROPOSED LAW

SECTION 1. Division 43 is added to the Public Resources Code, to read:

DIVISION 43. THE SAFE DRINKING WATER, WATER QUALITY AND SUPPLY, FLOOD CONTROL, RIVER AND COASTAL PROTECTION BOND ACT OF 2006

CHAPTER 1. GENERAL PROVISIONS

75001. This Division shall be known and may be cited as the Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006.

75002. The people of California find and declare that protecting the state's drinking water and water resources is vital to the public health, the state's economy, and the environment.

75002.5. The people of California further find and declare that the state's waters are vulnerable to contamination by dangerous bacteria, polluted runoff, toxic chemicals, damage from catastrophic floods and the demands of a growing population. Therefore, actions must be taken to ensure safe drinking water and a reliable supply of water for farms, cities and businesses, as well as to protect California's rivers, lakes, streams, beaches, bays and coastal waters, for this and future generations.

75003. The people of California further find and declare that it is

83

84

necessary and in the public interest to do all of the following:

- (a) Ensure that safe drinking water is available to all Californians by:
- (1) Providing for emergency assistance to communities with contaminated sources of drinking water.
 - (2) Assisting small communities in making the improvements needed in their water systems to clean up and protect their drinking water from contamination.
 - (3) Providing grants and loans for safe drinking water and water pollution prevention projects.
 - (4) Protecting the water quality of the Sacramento-San Joaquin Delta, a key source of drinking water for 23 million Californians.
 - (5) Assisting each region of the state in improving local water supply reliability and water quality.
 - (6) Resolving water-related conflicts, improving local and regional water self-sufficiency and reducing reliance on imported water.
- (b) Protect the public from catastrophic floods by identifying and mapping the areas most at risk, inspecting and repairing levees and flood control facilities, and reducing the long-term costs of flood management, reducing future flood risk and maximizing public benefits by planning, designing and implementing multi-objective flood corridor projects.
- (c) Protect the rivers, lakes and streams of the state from pollution, loss of water quality, and destruction of fish and wildlife habitat.
- (d) Protect the beaches, bays and coastal waters of the state for future generations.
- (e) Revitalizing our communities and making them more sustainable and livable by investing in sound land use planning, local parks and urban greening.
- 75003.5. The people of California further find and declare that the growth in population of the state and the impacts of climate change pose significant challenges. These challenges must be addressed through careful planning and through improvements in land use and water management that both reduce contributions to global warming and improve the adaptability of our water and flood control systems. Improvements include better integration of water supply, water quality, flood control and ecosystem protection, as well greater water use efficiency and conservation to reduce energy consumption.
75004. It is the intent of the people that investment of public funds pursuant to this division should result in public benefits.
75005. As used in this division, the following terms have the following meanings:
- (a) "Acquisition" means the acquisition of a fee interest or any other interest in real property including easements, leases and development rights.
 - (b) "Board" means the Wildlife Conservation Board.
 - (c) "California Water Plan" means the California Water Plan Update Bulletin 160-05 and subsequent revisions and amendments.
 - (d) "Delta" means the Sacramento-San Joaquin River Delta.
 - (e) "Department" means the Department of Water Resources.
 - (f) "Development" includes, but is not limited to the physical improvement of real property including the construction of facilities or structures.
 - (g) "Disadvantaged community" means a community with a median household income less than 80% of the statewide average. "Severely disadvantaged community" means a community with a median household income less than 60% of the statewide average.
 - (h) "Fund" means the Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Fund of 2006.
 - (i) "Interpretation" includes, but is not limited to, a visitor serving amenity that educates and communicates the significance and value of natural, historical, and cultural resources in a way that increases the understanding and enjoyment of these resources and that may utilize the expertise of a naturalist or other specialist skilled at educational interpretation.
 - (j) "Local conservation corps" means a program operated by a public agency or nonprofit organization that meets the requirements of Section 14406.
 - (k) "Nonprofit organization" means any nonprofit corporation

qualified to do business in California, and qualified under Section 501 (c)(3) of the Internal Revenue Code.

- (l) "Preservation" means rehabilitation, stabilization, restoration, development, and reconstruction, or any combination of those activities.
 - (m) "Protection" means those actions necessary to prevent harm or damage to persons, property or natural resources or those actions necessary to allow the continued use and enjoyment of property or natural resources and includes acquisition, development, restoration, preservation and interpretation.
 - (n) "Restoration" means the improvement of physical structures or facilities and, in the case of natural systems and landscape features includes, but is not limited to, projects for the control of erosion, the control and elimination of exotic species, prescribed burning, fuel hazard reduction, fencing out threats to existing or restored natural resources, road elimination, and other plant and wildlife habitat improvement to increase the natural system value of the property. Restoration projects shall include the planning, monitoring and reporting necessary to ensure successful implementation of the project objectives.
 - (o) "Secretary" means the Secretary of the Resources Agency.
 - (p) "State Board" means the State Water Resources Control Board.
75009. The proceeds of bonds issued and sold pursuant to this division shall be deposited in the Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Fund of 2006, which is hereby created. Except as specifically provided in this division the money shall be available for appropriation by the Legislature, in the manner and for the purposes set forth in this division in accordance with the following schedule:

- (a) The sum of one billion five hundred twenty five million dollars (\$1,525,000,000) for safe drinking water, water quality and other water projects in accordance with the provisions of Chapter 2.
- (b) The sum of eight hundred million dollars (\$800,000,000) for flood control projects in accordance with the provisions of Chapter 3.
- (c) The sum of sixty five million dollars (\$65,000,000) for statewide water management in accordance with the provisions of Chapter 4.
- (d) The sum of nine hundred twenty eight million dollars (\$928,000,000) for the protection of rivers, lakes and streams in accordance with the provisions of Chapter 5.
- (e) The sum of four hundred fifty million dollars (\$450,000,000) for forest and wildlife conservation in accordance with the provisions of Chapter 6.
- (f) The sum of five hundred forty million dollars (\$540,000,000) for the protection of beaches, bays, and coastal waters and watersheds in accordance with the provisions of Chapter 7.
- (g) The sum of five hundred million dollars (\$500,000,000) for state parks and nature education facilities in accordance with Chapter 8.
- (h) The sum of five hundred eighty million dollars (\$580,000,000) for sustainable communities and climate change reduction projects in accordance with Chapter 9.

CHAPTER 2. SAFE DRINKING WATER AND WATER QUALITY PROJECTS

75020. This chapter is intended to provide the funds necessary to address the most critical water needs of the state including the provision of safe drinking water to all Californians, the protection of water quality and the environment, and the improvement of water supply reliability.

75021. (a) The sum of ten million dollars (\$10,000,000) shall be available to the Department of Health Services for grants and direct expenditures to fund emergency and urgent actions to ensure that safe drinking water supplies are available to all Californians. Eligible projects include, but are not limited to, the following:

- (1) Providing alternate water supplies including bottled water where necessary to protect public health.
- (2) Improvements in existing water systems necessary to prevent contamination or provide other sources of safe drinking water including replacement wells.
- (3) Establishing connections to an adjacent water system.
- (4) Design, purchase, installation and initial operation costs for water treatment equipment and systems.

(b) Grants and expenditures shall not exceed \$250,000 per project.

(c) Direct expenditures for the purposes of this section shall be exempt from contracting and procurement requirements to the extent necessary to take immediate action to protect public health and safety.

75022. The sum of one hundred eighty million dollars (\$180,000,000) shall be available to the Department of Health Services for grants for small community drinking water system infrastructure improvements and related actions to meet safe drinking water standards. Priority shall be given to projects that address chemical and nitrate contaminants, other health hazards and by whether the community is disadvantaged or severely disadvantaged. Special consideration shall be given to small communities with limited financial resources. Eligible recipients include public agencies and incorporated mutual water companies that serve disadvantaged communities. The Department of Health Services may make grants for the purpose of financing feasibility studies and to meet the eligibility requirements for a construction grant. Construction grants shall be limited to \$5,000,000 per project and not more than twenty five percent of a grant may be awarded in advance of actual expenditures. The Department of Health Services may expend up to \$5,000,000 of the funds allocated in this section for technical assistance to eligible communities.

75023. For the purpose of providing the state share needed to leverage federal funds to assist communities in providing safe drinking water, the sum of fifty million dollars (\$50,000,000) shall be available for deposit into the Safe Drinking Water State Revolving Fund (Section 116760.30 of the Health and Safety Code).

75024. For the purpose of providing the state share needed to leverage federal funds to assist communities in making those infrastructure investments necessary to prevent pollution of drinking water sources, the sum of eighty million dollars (\$80,000,000) shall be available for deposit into the State Water Pollution Control Revolving Fund (Section 13477 of the Water Code).

75025. The sum of sixty million dollars (\$60,000,000) shall be available to the Department of Health Services for the purpose of loans and grants for projects to prevent or reduce contamination of groundwater that serves as a source of drinking water. The Department of Health Services shall require repayment for costs that are subsequently recovered from parties responsible for the contamination. The Legislature may enact legislation necessary to implement this section.

75026. (a) The sum of one billion dollars (\$1,000,000,000) shall be available to the department for grants for projects that assist local public agencies to meet the long term water needs of the state including the delivery of safe drinking water and the protection of water quality and the environment. Eligible projects must implement integrated regional water management plans that meet the requirements of this section. Integrated regional water management plans shall identify and address the major water related objectives and conflicts within the region, consider all of the resource management strategies identified in the California Water Plan, and use an integrated, multi-benefit approach to project selection and design. Plans shall include performance measures and monitoring to document progress toward meeting plan objectives. Projects that may be funded pursuant to this section must be consistent with an adopted integrated regional water management plan or its functional equivalent as defined in the department's Integrated Regional Water Management Guidelines, must provide multiple benefits, and must include one or more of the following project elements:

- (1) Water supply reliability, water conservation and water use efficiency.
- (2) Storm water capture, storage, clean-up, treatment, and management.
- (3) Removal of invasive non-native species, the creation and enhancement of wetlands, and the acquisition, protection, and restoration of open space and watershed lands.
- (4) Non-point source pollution reduction, management and monitoring.
- (5) Groundwater recharge and management projects.
- (6) Contaminant and salt removal through reclamation, desalting, and other treatment technologies and conveyance of reclaimed water for distribution to users.
- (7) Water banking, exchange, reclamation and improvement of water quality.

(8) Planning and implementation of multipurpose flood management programs.

(9) Watershed protection and management.

(10) Drinking water treatment and distribution.

(11) Ecosystem and fisheries restoration and protection.

(b) The Department of Water Resources shall give preference to proposals that satisfy the following criteria:

(1) Proposals that effectively integrate water management programs and projects within a hydrologic region identified in the California Water Plan; the Regional Water Quality Control Board region or subdivision or other region or sub-region specifically identified by the department.

(2) Proposals that effectively integrate water management with land use planning.

(3) Proposals that effectively resolve significant water-related conflicts within or between regions.

(4) Proposals that contribute to the attainment of one or more of the objectives of the CALFED Bay-Delta Program.

(5) Proposals that address statewide priorities.

(6) Proposals that address critical water supply or water quality needs for disadvantaged communities within the region.

(c) Not more than 5% of the funds provided by this section may be used for grants or direct expenditures for the development, updating or improvement of integrated regional water management plans.

(d) The department shall coordinate the provisions of this section with the program provided in Chapter 8 of Division 26.5 of the Water Code and may implement this section using existing Integrated Regional Water Management Guidelines.

75027. (a) The funding provided in Section 75026 shall be allocated to each hydrologic region as identified in the California Water Plan and listed below. For the South Coast Region, the department shall establish three sub-regions that reflect the San Diego county watersheds, the Santa Ana River watershed, and the Los Angeles—Ventura County watersheds respectively, and allocate funds to those sub-regions. The North and South Lahontan regions shall be treated as one region for the purpose of allocating funds, but the department may require separate regional plans. Funds provided in Section 75026 shall be allocated according to the following schedule:

(1) North Coast	\$37,000,000
(2) San Francisco Bay	\$138,000,000
(3) Central Coast	\$52,000,000
(4) Los Angeles sub-region	\$215,000,000
(5) Santa Ana sub-region	\$114,000,000
(6) San Diego sub-region	\$91,000,000
(7) Sacramento River	\$73,000,000
(8) San Joaquin River	\$57,000,000
(9) Tulare/Kern (Tulare Lake)	\$60,000,000
(10) North/South Lahontan	\$27,000,000
(11) Colorado River Basin	\$36,000,000
(12) Inter-regional/Unallocated	\$100,000,000

(b) The interregional and unallocated funds provided in subdivision (a) may be expended directly or granted by the department to address multi-regional needs or issues of statewide significance.

75028. (a) The department shall allocate grants on a competitive basis within each identified hydrologic region or sub-region pursuant to Section 75027. The department may establish standards and procedures for the development and approval of local project selection processes within hydrologic regions and sub-regions identified in Section 75027. The department shall defer to approved local project selection, and review projects only for consistency with the purposes of Section 75026.

(b) If a hydrologic region or sub-region identified in Section 75027 does not have any adopted plan that meets the requirements of Section 75026 at the time of the department's grant selection process, the funds allocated to that hydrologic region or sub-region shall not be reallocated to another region but will remain unallocated until such time as an adopted plan from the hydrologic region or sub-region is submitted to the department.

75029. The sum of one hundred thirty million dollars (\$130,000,000)

shall be available to the department for grants to implement Delta water quality improvement projects that protect drinking water supplies. The department shall require a cost share from local agencies. Eligible projects are:

(a) Projects that reduce or eliminate discharges of salt, dissolved organic carbon, pesticides, pathogens and other pollutants to the San Joaquin River. Not less than forty million (\$40,000,000) shall be available to implement projects to reduce or eliminate discharges of subsurface agricultural drain water from the west side of the San Joaquin Valley for the purpose of improving water quality in the San Joaquin River and the Delta.

(b) Projects that reduce or eliminate discharges of bromide, dissolved organic carbon, salt, pesticides and pathogens from discharges to the Sacramento River.

(c) Projects at Franks Tract and other locations in the Delta that will reduce salinity or other pollutants at agricultural and drinking water intakes.

(d) Projects identified in the June 2005 Delta Region Drinking Water Quality Management Plan, with a priority for design and construction of the relocation of drinking water intake facilities for in-delta water users.

75029.5. The sum of fifteen million dollars (\$15,000,000) shall be available to the state board for grants to public agencies and non-profit organizations for projects that reduce the discharge of pollutants from agricultural operations into surface waters of the state.

CHAPTER 3. FLOOD CONTROL

75030. This chapter is intended to provide the funding needed to address short term flood control needs such as levee inspection and evaluation, floodplain mapping and improving the effectiveness of emergency response, and providing funding for critical immediate flood control needs throughout the state. It is also intended to provide a framework to support long term strategies that will require the establishment of more effective levee maintenance programs, better floodplain management and more balanced allocation of liability and responsibility between the federal, state and local governments.

75031. The sum of thirty million dollars (\$30,000,000) shall be available to the department for the purposes of floodplain mapping, assisting local land-use planning, and to avoid or reduce future flood risks and damages. Eligible projects include, but are not limited to:

- (a) Mapping floodplains.
- (b) Mapping rural areas with potential for urbanization.
- (c) Mapping and identification of flood risk in high density urban areas.
- (d) Mapping flood hazard areas.
- (e) Updating outdated floodplain maps.
- (f) Mapping of riverine floodplains, alluvial fans, and coastal flood hazard areas.
- (g) Collecting topographic and hydrographic survey data.

75032. The sum of two hundred seventy five million dollars (\$275,000,000) shall be available to the department for the following flood control projects:

- (a) The inspection and evaluation of the integrity and capability of existing flood control project facilities and the development of an economically viable flood control rehabilitation plan.
- (b) Improvement, construction, modification, and relocation of flood control levees, weirs, or bypasses including repair of critical bank and levee erosion.
- (c) Projects to improve the department's emergency response capability.
- (d) Environmental mitigation and infrastructure relocation costs related to projects under this section.
- (e) To the extent feasible, the department shall implement a multi-objective management approach for floodplains that would include, but not be limited to, increased flood protection, ecosystem restoration, and farmland protection.

75032.4. Notwithstanding Section 13340 of the Government Code, the funds allocated in Sections 75031 and 75032 are continuously

appropriated to the department for the purposes of those sections.

75032.5. The sum of forty million dollars (\$40,000,000) shall be available to the department for Flood Protection Corridor projects that are consistent with Water Code Section 79037.

75033. The sum of two hundred seventy five million dollars (\$275,000,000) shall be available to the department for flood control projects in the Delta designed to increase the department's ability to respond to levee breaches and to reduce the potential for levee failures. The funds provided by this section shall be available for the following purposes:

- (a) Projects to improve emergency response preparedness.
- (b) Local assistance under the delta levee maintenance subventions program under Part 9 (commencing with Section 12980) of Division 6 of the Water Code.
- (c) Special flood protection projects under Chapter 2 (commencing with Section 12310) of Part 4.8 of Division 6 of the Water Code, including projects for the acquisition, preservation, protection and restoration of Delta lands for the purpose of flood control and to meet multiple objectives such as drinking water quality ecosystem restoration and water supply reliability.
- (d) All projects shall be subject to the provisions of Water Code Section 79050.

75034. The sum of one hundred eighty million dollars (\$180,000,000) shall be available to the department for the purposes of funding the state's share of the nonfederal costs of flood control and flood prevention projects for which assurances required by the federal government have been provided by a local agency and which have been authorized under the State Water Resources Law of 1945 (Chapter 1 (commencing with Section 12570) and Chapter 2 (commencing with Section 12639) of Part 6 of Division 6 of the Water Code), the Flood Control Law of 1946 (Chapter 3 (commencing with Section 12800) of Part 6 of Division 6 of the Water Code), and the California Watershed Protection and Flood Prevention Law (Chapter 4 (commencing with Section 12850) of Part 6 of Division 6 of the Water Code), including the credits and loans to local agencies pursuant to Sections 12585.3 and 12585.4, subdivision (d) of Section 12585.5, and Sections 12866.3 and 12866.4 of the Water Code, and to implement Chapter 3.5 (commencing with Section 12840) of Part 6 of Division 6 of the Water Code. Projects eligible for funding pursuant to this section shall comply with the requirements of AB 1147 (Statutes of 2000, Chapter 1071).

CHAPTER 4. STATEWIDE WATER PLANNING AND DESIGN

75041. The sum of sixty five million dollars (\$65,000,000) shall be available to the department for planning and feasibility studies related to the existing and potential future needs for California's water supply, conveyance and flood control systems. The studies shall be designed to promote integrated, multi-benefit approaches that maximize the public benefits of the overall system including protection of the public from floods, water supply reliability, water quality, and fish, wildlife and habitat protection and restoration. Projects to be funded include:

- (a) Evaluation of climate change impacts on the state's water supply and flood control systems and the development of system redesign alternatives to improve adaptability and public benefits.
- (b) Surface water storage planning and feasibility studies pursuant to the CALFED Bay-Delta Program.
- (c) Modeling and feasibility studies to evaluate the potential for improving flood protection and water supply through coordinating groundwater storage and reservoir operations.
- (d) Other planning and feasibility studies necessary to improve the integration of flood control and water supply systems.

CHAPTER 5. PROTECTION OF RIVERS, LAKES AND STREAMS

75050. The sum of nine hundred twenty eight million dollars (\$928,000,000) shall be available for the protection and restoration of rivers, lakes and streams, their watersheds and associated land, water, and other natural resources in accordance with the following schedule:

- (a) The sum of one hundred eighty million dollars (\$180,000,000) shall be available to the Department of Fish and Game, in consultation with the department, for Bay-Delta and coastal fishery restoration projects. Of

the funds provided in this section, up to \$20,000,000 shall be available for the development of a natural community conservation plan for the CALFED Bay-Delta Program and up to \$45,000,000 shall be available for coastal salmon and steelhead fishery restoration projects that support the development and implementation of species recovery plans and strategies for salmonid species listed as threatened or endangered under state or federal law.

(b) The sum of ninety million dollars (\$90,000,000) shall be available for projects related to the Colorado River in accordance with the following schedule:

(1) Not more than \$36,000,000 shall be available to the department for water conservation projects that implement the Allocation Agreement as defined in the Quantification Settlement Agreement.

(2) Not more than \$7,000,000 shall be available to the Department of Fish and Game for projects to implement the Lower Colorado River Multi-Species Habitat Conservation Plan.

(3) \$47,000,000 shall be available for deposit into the Salton Sea Restoration Fund.

(c) The sum of fifty four million dollars (\$54,000,000) shall be available to the department for development, rehabilitation, acquisition, and restoration costs related to providing public access to recreation and fish and wildlife resources in connection with state water project obligations pursuant to Water Code Section 11912.

(d) The sum of seventy two million dollars (\$72,000,000) shall be available to the secretary for projects in accordance with the California River Parkways Act of 2004 Chapter 3.8 (commencing with Section 5750) of Division 5. Up to \$10,000,000 may be transferred to the Department of Conservation for the Watershed Coordinator Grant Program.

(e) The sum of eighteen million dollars (\$18,000,000) shall be available to the department for the Urban Streams Restoration Program pursuant to Water Code Section 7048.

(f) The sum of thirty six million dollars (\$36,000,000) shall be available for river parkway projects to the San Joaquin River Conservancy.

(g) The sum of seventy two million dollars (\$72,000,000) shall be available for projects within the watersheds of the Los Angeles and San Gabriel Rivers according to the following schedule:

(1) \$36,000,000 to the San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy pursuant to Division 22.8 (commencing with Section 32600).

(2) \$36,000,000 to the Santa Monica Mountains Conservancy for implementation of watershed protection activities throughout the watershed of the Upper Los Angeles River pursuant to Section 79508 of the Water Code.

(h) The sum of thirty six million dollars (\$36,000,000) shall be available for the Coachella Valley Mountains Conservancy.

(i) The sum of forty five million dollars (\$45,000,000) shall be available for projects to expand and improve the Santa Ana River Parkway. Project funding shall be appropriated to the State Coastal Conservancy for projects developed in consultation with local government agencies participating in the development of the Santa Ana River Parkway. Of the amount provided in this paragraph the sum of thirty million dollars (\$30,000,000) shall be equally divided between projects in Orange, San Bernardino and Riverside Counties.

(j) The sum of fifty four million dollars (\$54,000,000) shall be available for the Sierra Nevada Conservancy.

(k) The sum of thirty six million dollars (\$36,000,000) shall be available for the California Tahoe Conservancy.

(l) The sum of forty five million dollars (\$45,000,000) shall be available to the California Conservation Corps for resource conservation and restoration projects and for facilities acquisition, development, restoration, and rehabilitation and for grants and state administrative costs, in accordance with the following schedule:

(1) The sum of twenty five million dollars (\$25,000,000) shall be available for projects to improve public safety and improve and restore watersheds including regional and community fuel load reduction projects on public lands, and stream and river restoration projects. Not less than 50% of these funds shall be in the form of grants to local conservation corps.

(2) The sum of twenty million dollars (\$20,000,000) shall be available for grants to local conservation corps for acquisition and

development of facilities to support local conservation corps programs, and for local resource conservation activities.

(m) The sum of ninety million dollars (\$90,000,000) to the state board for matching grants to local public agencies for the reduction and prevention of stormwater contamination of rivers, lakes, and streams. The Legislature may enact legislation to implement this subdivision.

(n) The sum of one hundred million dollars (\$100,000,000) shall be available to the secretary for the purpose of implementing a court settlement to restore flows and naturally-reproducing and self-sustaining populations of salmon to the San Joaquin River between Friant Dam and the Merced River. These funds shall be available for channel and structural improvements, and related research pursuant to the court settlement. The secretary is authorized to enter into a cost-sharing agreement with the United States Secretary of the Interior and other parties, as necessary, to implement this provision.

CHAPTER 6. FOREST AND WILDLIFE CONSERVATION

75055. The sum of four hundred fifty million dollars (\$450,000,000) shall be available for the protection and conservation of forests and wildlife habitat according to the following schedule:

(a) Notwithstanding Section 13340 of the Government Code, the sum of one hundred eighty million dollars (\$180,000,000) is continuously appropriated to the board for forest conservation and protection projects. The goal of this grant program is to promote the ecological integrity and economic stability of California's diverse native forests for all their public benefits through forest conservation, preservation and restoration of productive managed forest lands, forest reserve areas, redwood forests and other forest types, including the conservation of water resources and natural habitats for native fish, wildlife and plants found on these lands.

(b) (1) Notwithstanding Section 13340 of the Government Code, the sum of one hundred thirty five million dollars (\$135,000,000) is hereby continuously appropriated to the board for the development, rehabilitation, restoration, acquisition and protection of habitat that accomplishes one or more of the following objectives:

(A) Promotes the recovery of threatened and endangered species.

(B) Provides corridors linking separate habitat areas to prevent fragmentation.

(C) Protects significant natural landscapes and ecosystems such as old growth redwoods, mixed conifer forests and oak woodlands, riparian and wetland areas, and other significant habitat areas.

(D) Implements the recommendations of California Comprehensive Wildlife Strategy, as submitted October 2005 to the United States Fish and Wildlife Service.

(2) Funds authorized by this subdivision may be used for direct expenditures or for grants and for related state administrative costs, pursuant to the Wildlife Conservation Law of 1947, Chapter 4 (commencing with Section 1300) of Division 2 of the Fish and Game Code, the Oak Woodland Conservation Act, Article 3.5 (commencing with Section 1360) of Chapter 4 of Division 2 of the Fish and Game Code, and the California Rangeland, Grazing Land and Grassland Protection Act, commencing with Section 10330 of Division 10.4. Funds scheduled in this subdivision may be used to prepare management plans for properties acquired by the Wildlife Conservation Board and for the development of scientific data, habitat mapping and other research information necessary to determine the priorities for restoration and acquisition statewide.

(3) Up to twenty five million dollars (\$25,000,000) may be granted to the University of California for the Natural Reserve System for matching grants for land acquisition and for the construction and development of facilities that will be used for research and training to improve the management of natural lands and the preservation of California's wildlife resources.

(c) The sum of ninety million dollars (\$90,000,000) shall be available to the board for grants to implement or assist in the establishment of Natural Community Conservation Plans, Chapter 10 (commencing with Section 2800) of Division 3 of the Fish and Game Code.

(d) The sum of forty five million dollars (\$45,000,000) shall be available for the protection of ranches, farms, and oak woodlands according to the following schedule:

(1) Grazing land protection pursuant to the California Rangeland, Grazing Land and Grassland Protection Act, commencing with Section

10330 of Division 10.4.....\$15,000,000.

(2) Oak Woodland Preservation pursuant to Article 3.5 (commencing with Section 1360) of Chapter 4 of Division 2 of the Fish and Game Code.... \$15,000,000.

(3) Agricultural land preservation pursuant to the California Farmland Conservancy Program Act of 1995, Article 1 (commencing with Section 10200) of Division 10.2..... \$10,000,000.

(4) To the board for grants to assist farmers in integrating agricultural activities with ecosystem restoration and wildlife protection..... \$5,000,000.

CHAPTER 7. PROTECTION OF BEACHES, BAYS AND COASTAL WATERS

75060. The sum of five hundred forty million dollars (\$540,000,000) shall be available for the protection of beaches, bays and coastal waters and watersheds, including projects to prevent contamination and degradation of coastal waters and watersheds, projects to protect and restore the natural habitat values of coastal waters and lands, and projects and expenditures to promote access to and enjoyment of the coastal resources of the state, in accordance with the following schedule:

(a) The sum of ninety million dollars (\$90,000,000) shall be available to the state board for the purpose of matching grants for protecting beaches and coastal waters from pollution and toxic contamination pursuant to the Clean Beaches Program, Chapter 3 (commencing with Section 30915) of Division 20.4. Not less than \$35,000,000 shall be for grants to local public agencies to assist those agencies to comply with the discharge prohibition into Areas of Special Biological Significance contained in the California Ocean Plan. Not less than 20% of the funds allocated by this subdivision shall be available to the Santa Monica Bay Restoration Commission.

(b) The sum of one hundred thirty five million dollars (\$135,000,000) shall be available for the State Coastal Conservancy for expenditure pursuant to Division 21.

(c) The sum of one hundred eight million dollars (\$108,000,000) shall be available for the San Francisco Bay Area Conservancy Program pursuant to Chapter 4.5 of Division 21. Not less than 20% of the funds allocated by this paragraph shall be expended on projects in watersheds draining directly to the Pacific Ocean.

(d) The sum of forty five million dollars (\$45,000,000) for the protection of the Santa Monica Bay and its watersheds shall be available as follows:

(1) To the Santa Monica Mountains Conservancy pursuant to Division 23 (commencing with Section 33000)..... \$20,000,000.

(2) To the Baldwin Hills Conservancy for the protection of the Ballona Creek/Baldwin Hills watershed..... \$10,000,000.

(3) To the Rivers and Mountains Conservancy..... \$15,000,000.

(e) The sum of forty five million dollars (\$45,000,000) for the protection of Monterey Bay and its watersheds shall be available to the State Coastal Conservancy.

(f) The sum of twenty seven million dollars (\$27,000,000) for the protection of San Diego Bay and adjacent watersheds shall be available to the State Coastal Conservancy.

(g) The sum of ninety million dollars (\$90,000,000) shall be allocated to the California Ocean Protection Trust Fund (Chapter 4 (commencing with Section 35650) of Division 26.5) and available for the purposes of projects consistent with Section 35650. Priority projects shall include the development of scientific data needed to adaptively manage the state's marine resources and reserves, including the development of marine habitat maps, the development and implementation of projects to foster sustainable fisheries using loans and grants, and the development and implementation of projects to conserve marine wildlife.

CHAPTER 8. PARKS AND NATURE EDUCATION FACILITIES

75063. The sum of five hundred million dollars (\$500,000,000) shall be available to provide public access to the resources of the State of California, including its rivers, lakes and streams, its beaches, bays and coastal waters, to protect those resources for future generations, and to increase public understanding and knowledge of those resources, in accordance with the following schedule:

(a) The sum of four hundred million dollars (\$400,000,000) shall be available to the Department of Parks and Recreation for development, acquisition, interpretation, restoration and rehabilitation of the state park system and its natural, historical, and visitor serving resources. The Department of Parks and Recreation shall include the following goals in setting spending priorities for the funds appropriated pursuant to this section:

(1) The restoration, rehabilitation and improvement of existing state park system lands and facilities.

(2) The expansion of the state park system to reflect the growing population and shifting population centers and needs of the state.

(3) The protection of representative natural resources based on the criteria and priorities identified in Section 75071.

(b) The sum of one hundred million dollars (\$100,000,000) shall be available to the Department of Parks and Recreation for grants for nature education and research facilities and equipment to non-profit organizations and public institutions, including natural history museums, aquariums, research facilities and botanical gardens. Eligible institutions include those that combine the study of natural science with preservation, demonstration and education programs that serve diverse populations, institutions that provide collections and programs related to the relationship of Native American cultures to the environment, and institutions for marine wildlife conservation research. Grants may be used for buildings, structures and exhibit galleries that present the collections to inspire and educate the public and for marine wildlife conservation research equipment and facilities.

CHAPTER 9. SUSTAINABLE COMMUNITIES AND CLIMATE CHANGE REDUCTION

75065. The sum of five hundred eighty million dollars (\$580,000,000) shall be available for improving the sustainability and livability of California's communities through investment in natural resources. The purposes of this chapter include reducing urban communities' contribution to global warming and increasing their adaptability to climate change while improving the quality of life in those communities. Funds shall be available in accordance with the following schedule:

(a) The sum of ninety million dollars (\$90,000,000) shall be available for urban greening projects that reduce energy consumption, conserve water, improve air and water quality, and provide other community benefits. Priority shall be given to projects that provide multiple benefits, use existing public lands, serve communities with the greatest need, and facilitate joint use of public resources and investments including schools. Implementing legislation shall provide for planning grants for urban greening programs. Not less than \$20,000,000 shall be available for urban forestry projects pursuant to the California Urban Forestry Act, Chapter 2 (commencing with Section 4799.06) of Part 2.5 of Division 1.

(b) The sum of four hundred million dollars (\$400,000,000) shall be available to the Department of Parks and Recreation for competitive grants for local and regional parks. Funds provided in this subdivision may be allocated to existing programs or pursuant to legislation enacted to implement this subdivision, subject to the following considerations:

(1) Acquisition and development of new parks and expansion of overused parks that provide park and recreational access to underserved communities shall be given preference.

(2) Creation of parks in neighborhoods where none currently exist shall be given preference.

(3) Outreach and technical assistance shall be provided to underserved communities to encourage full participation in the program or programs.

(4) Preference shall be given to applicants that actively involve community based groups in the selection and planning of projects.

(5) Projects will be designed to provide efficient use of water and other natural resources.

(c) The sum of ninety million dollars (\$90,000,000) shall be available for planning grants and planning incentives, including revolving loan programs and other methods to encourage the development of regional and local land use plans that are designed to promote water conservation, reduce automobile use and fuel consumption, encourage greater infill and compact development, protect natural resources and agricultural lands, and revitalize urban and community centers.

75066. Appropriation of the funds provided in subdivisions (a) and (c) of Section 75065 may only be made upon enactment of legislation to implement that subdivision.

CHAPTER 10. MISCELLANEOUS PROVISIONS

75070. Every proposed activity or project to be financed pursuant to this division shall be in compliance with the California Environmental Quality Act, Division 13 (commencing with Section 21000).

75070.4. Acquisitions of real property pursuant to Chapters 5, 6, 7, 8, and 9 shall be from willing sellers.

75070.5. Not more than 5% of the funds allocated to any program in this division may be used to pay the costs incurred in the administration of that program.

75071. In evaluating potential projects that include acquisition or restoration for the purpose of natural resource protection, the Department of Parks and Recreation, the board, and the State Coastal Conservancy shall give priority to projects that demonstrate one or more of the following characteristics:

(a) *Landscape/Habitat Linkages*: properties that link to, or contribute to linking, existing protected areas with other large blocks of protected habitat. Linkages must serve to connect existing protected areas, facilitate wildlife movement or botanical transfer, and result in sustainable combined acreage.

(b) *Watershed Protection*: projects that contribute to long-term protection of and improvement to the water and biological quality of the streams, aquifers, and terrestrial resources of priority watersheds of the major biological regions of the state as identified by the Resources Agency.

(c) *Properties that support relatively large areas of under-protected major habitat types*.

(d) *Properties that provide habitat linkages between two or more major biological regions of the state*.

(e) *Properties for which there is a non-state matching contribution toward the acquisition, restoration, stewardship or management costs. Matching contributions can be either monetary or in the form of services, including volunteer services.*

(f) *At least fourteen days before approving an acquisition project funded by this division, an agency subject to this section shall submit to the Resources Agency and post on its website an explanation as to whether and how the proposed acquisition meets criteria established in this section.*

75071.5. The Department of Parks and Recreation, the board, and the State Coastal Conservancy shall work with the United States Department of Defense to coordinate the development of buffer areas around military facilities that facilitate the continued operation of those facilities and promote the conservation and recreation goals of the state. To the extent consistent with this division, agencies may provide funding to support projects that meet the purposes of this section.

75072. Up to 10 percent of funds allocated for each program funded by this division may be used to finance planning and monitoring necessary for the successful design, selection, and implementation of the projects authorized under that program. This provision shall not otherwise restrict funds ordinarily used by an agency for "preliminary plans," "working drawings," and "construction" as defined in the Annual Budget Act for a capital outlay project or grant project. Water quality monitoring shall be integrated into the Surface Water Ambient Monitoring Program administered by the state board.

75072.5. For the purposes of Section 75060(e), "Monterey Bay and its watersheds" shall be considered to be watersheds of those rivers and streams in Santa Cruz and Monterey Counties flowing to the Monterey Bay southward to, and including, the Carmel River watershed.

75072.6. For purposes of Section 75060(f), "San Diego Bay and adjacent watersheds" includes the coastal and bay watersheds within San Diego County.

75072.7. For purposes of Section 75060(d), "Santa Monica Bay and watershed" includes the coastal and bay watersheds in Ventura and Los Angeles Counties from Calleguas Creek southward to the San Gabriel River.

75073. Funds scheduled in Chapter 5, 6, 7 and 8 of this division that are not designated for competitive grant programs may also be used

for the purposes of reimbursing the General Fund, pursuant to the Natural Heritage Preservation Tax Credit Act of 2000 (Division 28 (commencing with Section 37000)).

75074. In enacting Chapters 5, 6, 7 and 8 of this division it is the intent of the people that when a project or program is funded herein, funds for such program or project may be used to the full extent authorized by the statute governing the program or conservancy receiving such funds.

75075. The body awarding any contract for a public works project financed in any part from funds made available pursuant to this division shall adopt and enforce, or contract with a third party to enforce, a labor compliance program pursuant to subdivision (b) of Labor Code Section 1771.5 for application to that public works project.

75076. Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code does not apply to the development and adoption of program guidelines and selection criteria adopted pursuant to this chapter.

75077. Funds provided pursuant to this chapter, and any appropriation or transfer of those funds, shall not be deemed to be a transfer of funds for the purposes of Chapter 9 (commencing with Section 2780) of Division 3 of the Fish and Game Code.

75078. The Secretary shall provide for an independent audit of expenditures pursuant to this division to ensure that all moneys are expended in accordance with the requirements of this division. The secretary shall publish a list of all program and project expenditures pursuant to this division not less than annually, in written form, and shall post an electronic form of the list on the Resources Agency's Internet Website.

75079. The Secretary shall appoint a citizen advisory committee to review the annual audit and to identify and recommend actions to ensure that the intent and purposes of this division are met by the agencies responsible for implementation of this division.

CHAPTER 11. FISCAL PROVISIONS

75080. Bonds in the total amount of five billion three hundred and eighty eight million dollars (\$5,388,000,000), not including the amount of any refunding bonds issued in accordance with Section 75088, or so much thereof as is necessary, may be issued and sold to be used for carrying out the purposes set forth in this division and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bond proceeds shall be deposited in the Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Fund of 2006 created by Section 75009. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of and interest on the bonds as they become due and payable.

75081. The bonds authorized by this division shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law, Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code, and all provisions of that law shall apply to the bonds and to this division and are hereby incorporated in this division by this reference as though fully set forth in this division.

75082. (a) Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this division, the Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Finance Committee is hereby created. For purposes of this division, the Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Finance Committee is "the committee" as that term is used by the State General Obligation Bond Law. The committee shall consist of the Controller, the Director of Finance, and the Treasurer, or their designated representatives. The Treasurer shall serve as chairperson of the committee. A majority of the committee may act for the committee.

(b) For purposes of this chapter and the State General Obligation Bond Law, the secretary is designated as "the board."

75083. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this division in order to carry out the actions specified in this division and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized

and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

75084. There shall be collected annually in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds maturing each year, and it is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do so and perform each and every act that is necessary to collect that additional sum.

75085. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund, for purposes of this division, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this division, as the principal and interest become due and payable.

(b) The sum which is necessary to carry out the provisions of Section 75086, appropriated without regard to fiscal years.

75086. For the purposes of carrying out this division, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds that have been authorized to be sold for the purpose of carrying out this division. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, plus the interest that the amounts would have earned in the Pooled Money Investment Account, from money received from the sale of bonds that would otherwise be deposited in that fund.

75087. All money derived from premium and accrued interest on bonds sold shall be reserved and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

75088. Any bonds issued or sold pursuant to this division may be refunded by the issuance of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code. Approval by the electors of the state for the issuance of the bonds shall include approval of the issuance of any bonds issued to refund any bonds originally issued or any previously issued refunding bonds.

75090. The people of California hereby find and declare that inasmuch as the proceeds from the sale of bonds authorized by this division are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitation imposed by that article.

SEC. 2. If any provision of this Act or the application thereof is held invalid, that invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 3. This Act is an exercise of the public power of the People of the State of California for the protection of their health, safety, and welfare and shall be liberally construed to effectuate those purposes.

PROPOSITION 85

This initiative measure is submitted to the people in accordance with the provisions of Article II, Section 8 of the California Constitution.

This initiative measure expressly amends the California Constitution by adding a section thereto; therefore, new provisions proposed to be added are printed in *italic type* to indicate that they are new.

PROPOSED LAW

SECTION 1. Title

This measure shall be known and may be cited as the Parents' Right to Know and Child Protection Initiative.

SEC. 2. Declaration of Findings and Purposes

The people of California have a special and compelling interest in and responsibility for protecting the health and well-being of children, ensuring that parents are properly informed of potential health-related risks and medical decisions involving their children, and promoting and enabling parental care and responsibility.

SEC. 3. Parental Notification

Section 32 is added to Article I of the California Constitution, to read:

SEC. 32. (a) For purposes of this section, the following terms shall be defined to mean:

(1) "Abortion" means the use of any means to terminate the pregnancy of an unemancipated minor known to be pregnant, except for the purpose of producing a live birth. "Abortion" shall not include the use of any contraceptive drug or device.

(2) "Medical emergency" means a condition which, on the basis of the physician's good-faith clinical judgment, so complicates the medical condition of a pregnant unemancipated minor as to necessitate the immediate abortion of her pregnancy to avert her death or for which a delay will create serious risk of substantial and irreversible impairment of a major bodily function.

(3) "Notice" means a written notification, signed and dated by a physician or his or her agent and addressed to a parent or guardian of an unemancipated minor, informing the parent or guardian that she is pregnant and that she has requested an abortion.

(4) "Parent or guardian" means a person who, at the time notice or waiver is required under this section, is either a parent if both parents have legal custody, or the parent or person having legal custody, or the legal guardian of an unemancipated minor.

(5) "Unemancipated minor" means a female under the age of 18 years who has not entered into a valid marriage and is not on active duty with the armed services of the United States and has not received a declaration of emancipation under state law. For the purposes of this section, pregnancy does not emancipate a female under the age of 18 years.

(6) "Physician" means any person authorized under the statutes and regulations of the State of California to perform an abortion upon an unemancipated minor.

(b) Notwithstanding Section 1 of Article I, or any other provision of this Constitution or law to the contrary and except in a medical emergency as provided for in subdivision (f), a physician shall not perform an abortion upon a pregnant unemancipated minor until the physician or the physician's agent has provided written notice to her parent or guardian personally as provided for in subdivision (c) and a reflection period of at least 48 hours has elapsed after personal delivery of notice; or until the physician can presume that notice has been delivered by mail as provided in subdivision (d) and a reflection period of at least 48 hours has elapsed after presumed delivery of notice by mail; or until the physician or the physician's agent has received a valid written waiver of notice as provided for in subdivision (e); or until the physician has received a copy of a waiver of notification from the court as provided in subdivision (h), (i), or (j). A copy of any notice or waiver shall be retained with the unemancipated minor's medical records. The physician or the physician's agent shall inform the unemancipated minor that her parent or guardian may receive notice as provided for in this section.

(c) The written notice shall be delivered to the parent or guardian personally by the physician or the physician's agent unless delivered by mail, as provided in subdivision (d). A form for the notice shall be prescribed by the State Department of Health Services. The notice form shall be bilingual, in English and Spanish, and also available in English and each of the other languages in which California Official Voter Information Guides are published.

(d) The written notice may be delivered by certified mail addressed to the parent or guardian at the parent's or guardian's last known address with return receipt requested and restricted delivery to the addressee. To help ensure timely notice, a copy of the written notice shall also be sent at the same time by first-class mail to the parent or guardian. Notice can only be presumed to have been delivered under the provisions of this subdivision at noon of the second day after the written notice sent by certified mail was postmarked, not counting any days on which regular mail delivery does not take place.

(e) Notice of an unemancipated minor's intent to obtain an abortion and the reflection period of at least 48 hours may be waived by her parent or guardian. The waiver must be in writing, on a form prescribed by the State Department of Health Services, signed by a parent or guardian, dated, and notarized. The parent or guardian shall specify on the form that the waiver is valid for 30 days, or until a specified date, or until the minor's eighteenth birthday. The written waiver need not be notarized if the parent
