

Forest Ranger Station Rehabilitation
Yurok Tribe
Klamath, CA

Yurok Redwood Forest Ranger Station

Klamath, CA

- Determined eligible for the National Register of Historic Places
- The Yurok Redwood Experimental Forest Ranger Station, built by California Civilian Conservation Corps (CCC) work crews in 1941, is occupied by the Yurok Tribe Culture Department under a Special Use Permit issued by the Six Rivers National Forest.
- Once rehabilitated, the building will improve public access to the Yurok Tribal Archives, California Historical Resources Information System (CHRIS) North Coastal Information Center, and the Yurok Tribal Heritage Preservation and Language Program offices.

Forest Ranger Station Rehabilitation

Yurok Tribe

Project Scope:

- Remove and replace porch surface; add wheel chair ramps to each end.
- Replace the lower rows of deteriorated clapboard siding with in-kind specialty milled and planed old-growth redwood.
- Re-shingle roof and seal the exteriors of the chimneys.
- Renovate and enlarge the downstairs bathroom for ADA compliance.

Grant Amount: \$57,000
