

NOTICE OF OPEN HOUSE

CALIFORNIA DEPARTMENT OF PARKS AND RECREATION

The Department of Parks and Recreation serves the public by bringing families and friends together and providing a wide array of recreational opportunities for the benefit and enjoyment of all people while protecting and preserving California's most significant natural and cultural resources. The Department accomplishes this not only through delivering services to 280 parks across the state, but also through programs that support local, regional and national recreation activities.

The Off Highway Motor Vehicle Recreation (OHMVR) program is a vital program that is recognized across the country as the leader in off-highway vehicle recreation. While the department operates 9 State Vehicular Recreation Areas, the vast majority of recreation occurs on other lands supported through this robust program.

On June 3, 2016, Department Director Lisa Mangat provided an update to the Off-Highway Vehicle Commission and members of the public on the department's *Organizational Structure Opportunities* project. At that meeting Director Mangat stated that there would be additional opportunities for public engagement in this process.

The public is invited to an open house to learn about the effort to review the department's organization structure. Through the *Organizational Structure Opportunities* project, the Department seeks to identify opportunities to elevate and strengthen all of its programs, including the OHMVR program and the services it provides.

The open house will provide a forum for the public to learn about this *Organizational Structure Opportunities* project from the Department, and for the Department to hear from the stakeholders. The Members of the Off-Highway Motor Vehicle Recreation Commission have been invited to attend; the Commission will not be taking any action on any matters at this Open House.

Open House

6:00 - 9:00 p.m., Tuesday, July 19, 2016
Resources Building Auditorium
1416 9th Street, Sacramento, CA 95814

Meeting facilities are accessible to people with disabilities. If you need specific accommodations, please contact Vicki Perez at (916)-324-4442.
