Karen Beery, State Park Interpreter II, Southern Service Center

SPECIAL THANKS TO

The Colorado Desert District/Sector Headquarters staff, who provided so many years knowledge & support

The *ABDSP Rangers*, who spent many hours (sometimes even days), to show us a more ‘real-life’ view of their patrol areas, enduring endless questions & curiosities.

The many contributors who worked on gathering data and writing the Resources Inventory, the foundation of the general plan document.

The many *citizens* who helped shape this plan through their dedicated participation at workshops and meetings
