

**Red Rock Canyon State Park
General Plan Amendment**

**PUBLIC MEETING #2
June 14, 2003**

**WRITTEN COMMENTS
Comment Cards**

- **Joan Woodman-** Preferred alternative plan is Excellent- seems very fair- very satisfied with road closures. Historic use is secondary to the protection of Last Chance Canyon. All birds chucker/quail- Audobon bird count records for past 5 (?) years available via Clark Moore, Tehachapi, CA.
- **Alan Woodman-** The proposed plan appears very reasonable to me.
- **Jerry Grimsley-** Preferred alternative is an improvement over previous plan, however I oppose permit requirement for access to Nightmare Gulch. I disagree that existing roads through Natural and Cultural preserves have a significant impact on the resources. I recommend that preserve boundaries be adjusted to accommodate use of existing roads.
- **Reginald East-** Trails- Hiking, Mountain Bike, Equestrian Trails are not compatible 1) Hiking only 2) Mountain Bike/Equestrian. Preferred plan appears to protect- conserve for present and future peoples to enjoy, well done!
