PUBLIC MEETING #3 FOR SANTA SUSANA PASS STATE HISTORIC PARK GENERAL PLAN

California State Parks (CSP) would like to invite you to the third public meeting for the Santa Susana Pass State Historic Park. The purpose of this meeting is to present the single (preferred) plan and support material.

The single plan was developed with the input received at the first and second public meetings held in January and June of 2006. After the presentation, the General Plan team will be available to receive public comments.

Following this meeting, the General Plan team will prepare the preliminary General Plan Documents. Upon the completion of this Document, the California Environmental Quality Act (CEQA) process will be initiated.

After the CEQA process, the General Plan Document will be presented to the California Parks and Recreation Commission which will entail a public hearing process.

A General Plan is mandated for state parks units by the Public Resources Code. The plan becomes the primary management document for a unit of the State Park System, establishing its purpose and management direction for the future. The plan does not provide specific designs or locations of facilities but does provide a vision for the park and guidelines for future development.
