

BIG BASIN REDWOODS STATE PARK DRAFT GENERAL PLAN PREFERRED ALTERNATIVE WILDERNESS & BACKCOUNTRY

WILDERNESS / BACKCOUNTRY GOALS

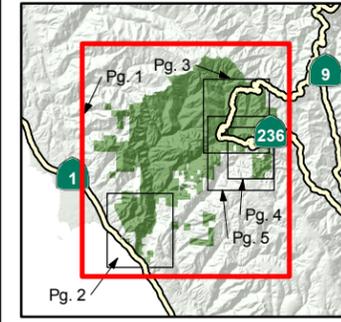

- Management intent is to preserve and protect the wild and remote natural landscape of the wilderness and backcountry areas, with opportunities for visitor experiences.
- Expand recreation opportunities while preserving the undeveloped character of the wilderness and backcountry areas.
- Complete resource inventories and prepare management plans for long-term public access, protection and interpretation of significant resources.
- Prepare an Interpretation Master Plan to provide further parkwide guidance and recommendations for interpretation.
- Improve trailhead parking and trail camps. Develop additional loop trails for hikers and equestrians, and establish sustainable creek crossings and drainages to reduce erosion and stream sedimentation.
- Make provisions for multi-use of the backcountry, with additional trailhead parking and trail camps. Develop a unitwide Roads and Trails Plan, with goals for regional trail connections and a continuous multi-use trail from the ridgetops to the coast (outside of the state wilderness).
