Your participation in Candlestick Point SRA workshops in January and July has come to fruition with the development of the draft preferred plan. Please join us to hear about the preferred programming and activities that are being planned for the State Recreation Area. This is a synthesis of ideas we heard at both workshops. Thoughts and comments that you provided on the draft alternative plans and the results of the questionnaires that you completed have been incorporated to create the preferred plan. At this workshop, we would like to have your help to refine and assist in finalizing the plan components for the General Plan. We will provide an opportunity for you to look more closely at areas within the park and share with us your thoughts and ideas for adjustments that will enhance the proposed improvements and activities.
