China Camp State Park Puts On Annual Heritage Day Celebration August 25

Forgotten by most people are the days when scores of boats docked at China Camp. At the turn of the century the pier was the hub of activity for this busy shrimp-fishing village. On August 25, the China Camp pier will look as it did in a bygone era as our annual Heritage Day is celebrated.

Sponsored by California State Parks and the Friends of China Camp, this special event highlights California's rich maritime history with a day of activities featuring a display of the GRACE QUAN, a full-size sailing replica of the Chinese junks that graced San Francisco Bay 100 years ago.

Visitors will also enjoy a tour of the National Park Service restored scow schooner ALMA; performances of folk music and traditional dance, as well as guided museum and grounds tours...and much more!

Heritage Day takes place at the China Camp Fishing Village from 11:30 A.M. to 4:00 P.M., at China Camp State Park on North San Pedro Road in San Rafael. From Highway 101 take the North San Pedro Road exit and head east until you reach the park. Follow signs to the Fishing Village. For more information call China Camp State Park staff at (415) 456-0766.
