adventurous life of Jack and Charmian London. The House of Happy Walls holds a collection of souvenirs from their travels throughout the South Seas. When you have finished touring the museum, wander out the front door and take the footpath to your left just .6 mile to the Londons' gravesites and the famous Wolf House ruins.

Tour #2 Beauty Ranch Tour

Park in the upper lot to the right of the entrance station for a walk back in time through Jack London's experimental ranch. From the parking lot a trail leads you over a knoll into 1911.

The park brochure will guide you to each of the ranch buildings, historic sites and Jack London's home, called the Cottage. The ranch tour is an easy walk on a gravel roadway approximately .5 mile.

Tour #3 Lake Tour

For those more energetic visitors seeking to understand why Jack selected the Valley of the Moon to lay down his anchor, this tour is for you. Park at the far west end of the upper lot. Begin your hike at the Lake Trail near the horse corral. Follow the Lake Trail one-quarter mile until it intersects a gravel road. Follow the road to your right past the silos to a green pipe gate. Take the foot path to your right into the cool, moist redwood forest. This trail will lead you to a shallow 5-acre lake built to provide recreational opportunities for ranch guests. Jack had a bathhouse built near the lake that was used as a changing room and for boat storage. Follow the curved stone dam around the other side of the lake and continue on the Mountain Trail for .15 mile to the Upper Lake Trailhead. This will take you through a forest of madrone, bay and redwood

trees .2 mile to the Lake Spur. The Lake Spur will intersect with the Lake Trail and return you to the gravel road.
