## **Temporary Closure: Marina State Beach Parking Lot**

The Marina State Beach Parking Lot (west end of Reservation Rd) will be temporarily closed due to facility improvements. The closure starts on Monday, April 2, 2012 and will run through Monday, April 23, 2012. Limited access will be restricted to only those persons having official business with the Marina Coast Water District or Park Ranger office.

This work is part of the facility improvements that have been under construction since September of last year. Among the improvements are new ADA-compliant restrooms (with exterior cold water shower), paved picnic table area, and other lot improvements. The building contractor (Engineering, Construction and Support Services of Riverside and Sand City) will be installing new concrete paving around the restroom and re-surface/stripping the existing parking lot. The old restroom along Reservation Road will be removed.

The beach itself will remain open for walk-in visitors. There is some limited public parking near the beach entrance. We apologize for any inconvenience this may cause our guests. We will be working closely with the contractor to ensure road closure only what's necessary for project completion.

For more information, contact Ranger Jo-Ellen McMenemy with our Public Safety Office.
