Ruck-a-Chucky Area to Close for Construction Within Auburn State Recreation Area

The Ruck-a-Chucky use area within the Auburn State Recreation Area will be closed to public use during the week of October 20 to October 24. Repair work will be done to the concrete stream crossing along the entrance road. This repair is in preparation for an extensive rehabilitation project scheduled to begin next spring. The rehabilitation project, funding by the Department of Boating and Waterways, will include installing new restrooms, improving the day use parking area, and raft put-in and take-out area.

The Ruck-a-Chucky use area will be open for public use late Friday, October 24.
