PLANNING MILESTONES FOR THE PARK UNITS AND MAJOR PROPERTIES ASSOCIATED WITH THE CALIFORNIA STATE PARK SYSTEM

July 1, 2007

OVERVIEW

This document is a compendium providing selected information on the classified units and major unclassified properties which currently are or have in the past been associated with the California State Park System.

The main purposes of this compendium are to provide, in a single source:

1. a record of the major milestones and achievements in unit-level land use and management planning which have been accomplished through the years by the Department, with the major accomplishments of the last year summarized in Chapter II;
2. a variety of other information useful to understanding the past history or current status of these units and properties, and of the evolution of unit-level land use and resource management planning in the Department; and
3. The definitive number and the specific identity of those basic classified units and major unclassified properties which constitute the official State Park System as of the date of this report's publication.

As of July 1, 2007, the California State Park System consists of 278 basic classified units and major unclassified properties. These are identified on Lists 1 and 2 in Chapter III. To have data current to July 1, 2008, this total will be the Department's official figure until the next edition of this report.

Located in a pocket on the inside of this report's back cover is a map of California which shows the location of the State Park System's 278 units and properties. It also shows the System's 84 classified "internal units."

Copies of this document are available for examination at the Department's district offices and in the state's seventeen depository libraries. Copies may be obtained from the Department's Planning Division in Sacramento, by calling (916) 653-9901. This document is also available in electronic format through the Internet, on the Department's website at: <http://www.parks.ca.gov/planning>.

Regarding this document and its map, any errors, omissions or suggestions for improvement may be reported to California State Parks' Planning Division.

DEDICATION

Planning Milestones has a tradition of honoring individuals whose contributions have made a significant and lasting impact on the California State Park System, particularly its planning activities. The July 1, 2007 edition honors a retiree who went above and beyond for some of the State Park System's most valuable resources.

Michael M. Tope

Michael Tope is a Southern California native, born and raised in the Coachella Valley. He attended California State Long Beach, working toward a degree in Health Science and P.E. Mike started his California State Parks career in 1978 as a Lifeguard at Lake Perris SRA. For 15 years, he worked his way through the ranks, becoming the Chief Ranger of the Orange Coast District in 1993. In 1998 he became the District Superintendent for the Orange Coast District, where he remained for 6 more years until his retirement in 2005.

Facing formidable public opposition (public meetings with upwards of 600 intense and emotional attendees), the Crystal Cove Project team abandoned the proposal for a concessionaire's resort and went back to the drawing board. In light of the public outcry, the Department resolved to start over with a very open public involvement process. Mike Tope provided a vital leadership role during the tumultuous controversy, representing the Department in Orange County and helping to rebuild public trust in the Department's efforts at Crystal Cove State Park.

Along with a mobilized planning and project team, Mike provided a positive and motivating force, dealing with contentious cottage tenant legal issues; obtaining interim project funding; organizing the monumental cleanup of the site and historic cottage stabilization. Mike was an integral part of the General Plan Amendment and rehabilitation project team; helped resolve issues during rehabilitation construction; and worked with disparate stakeholders. In fact, his involvement eventually helped convert some of the most powerful and vocal opponents into the Department's strongest allies at Crystal Cove. Mike also helped set up a non-profit group to operate the Crystal Cove rental cottages, restaurant, and other adaptive uses. When the first rehabilitation phase of Crystal Cove was finally completed and opened for public use, unprecedented public demand for the rental cottages broke all Department overnight reservation records. This record-setting demand continues.

Mike helped transform one of the Department's most daunting project challenges into one of its most unique and unprecedented successes. Furthermore, he continued to help advance legal and project efforts toward converting the El Morro Mobile Home Park to public use, and helped with opposing a toll-road proposal at San Onofre State Park, both formidable and controversial challenges. Mike's role in the Crystal Cove Historic District success and the efforts to convert El Morro to public use overcame the two most stubborn challenges to fulfilling the park's original 1982 General Plan vision. His contributions will have a lasting benefit for Crystal Cove State Park and its visitors.

CHAPTER I

REPORT ORGANIZATION

This report provides information on the planning documents which have been prepared for the individual classified units and the major unclassified properties that currently are (or were in the past) part of or associated with the California State Park System. These are planning materials which provide broad policy and programmatic guidance for resource management, land use, facility development, interpretation and concessions, as well as for certain operational activities relevant to the unit or property. This document does not include information on plans that deal with specialized resource issues (e.g. control of exotic plant species), visitor management plans or with the development of the unit's infrastructure (e.g. construction of a utility system or a building).

The two types of properties considered in this report are:

- classified units - These are properties for which a specific, legislatively-defined, classification was approved either by the State Park and Recreation Commission or, in rare instances, assigned to the land by the California Legislature. There are two kinds of classified units; the 'basic' units that collectively form the bulk of the State Park System, and the 'internal' classified units that may be located within and as part of the basic units; and
- unclassified properties - These are lands which are or have been associated with the State Park System, but which have not been classified by the State Park and Recreation Commission as units. Many of these properties are major holdings that will eventually be classified as individual park units. The others are smaller properties that are being held by the Department for a variety of reasons.

Virtually all of the Department's planning work is applied to classified units. Except as a guide to interim management, relatively little formal, long-range planning effort is expended on properties that have not yet gained this status.

In this report, well over 500 classified units and unclassified properties have been identified and organized into ten mutually exclusive categories or groups. The units and properties which have been placed in each category appear on separate lists. A detailed description of each category is provided on the divider page that precedes each list or set of closely related lists. A detailed description of these lists can be found in Chapter IV.

A unit's classification is an integral part of the unit's name. A classification is an official designation defined by state law. A classification specifies the purpose and helps define the management of the unit. These classifications are defined in sections 5019.50 *et seq* of the California Public Resources Code (PRC) and are:

- State parks
- State recreation units
 - State recreation areas
 - Underwater recreation areas
 - State beaches
 - Wayside campgrounds
- Historical units
- State seashores
- State reserves
 - State natural reserves
 - State cultural reserves

The interpretation of these classifications, and their standard abbreviations, are:

State Beach	SB
State Cultural Reserve	SCR
State Historical Monument	SHM
State Historic Park	SHP
*State Natural Reserve	SNR
State Park	SP
State Recreation Area	SRA
State Seashore	SS
State Vehicular Recreation Area	SVRA
Underwater Recreation Area	URA
Wayside Campgrounds	WC

The * here indicates that the classification, State Natural Reserve, was created by the Legislature, effective January 2004 and is the replacement term for the pre-existing classification of State Reserve. With the amendment of the Public Resources Code (section 5019.65(a)) the existing State Reserves retroactively became State Natural Reserves.

Starting in 2004, the Commission used the words “state park” as part of the unit name, then gave it a classification other than that of state park. An example is Rio de Los Angeles State Park SRA, classified as a State Recreation Area. This was done in the belief that including the words “state park” in the title itself would give the system greater name recognition with the public, since “state park” is the most widely recognized of the available unit classifications.

In addition, the PRC sections 5019.50 *et seq.*, provides three classifications which are given to lands which either may or must lie entirely within the boundaries of a unit which has been given one of the above-listed classifications. Such units are commonly referred to as “internal units.” The intent of these three classifications is to mandate

* 2003-2004 California State Legislature Regular Session, Chapter 517, AB No. 1476.

greater protection to the particularly valuable natural or cultural resources situated within unit boundaries. Any classified unit may have one or more “internal units” within its boundaries. These “internal unit” classifications are:

Cultural Preserve	CP
Natural Preserve	NP
State Wilderness	SW

Five additional classifications available to State Park System units were created by the Marine Managed Areas Improvement Act of 2000 as identified in PRC sections 5019.80 and 36000 *et seq.*:

State Marine Conservation Area	SMCA
State Marine Cultural Preservation Area	SMCPA
State Marine Park	SMP
State Marine Recreational Management Area	SMRMA
State Marine Reserve	SMR

The State Water Quality Protection Area (SWQPA) was also created by the Marine Managed Improvement Act of 2000. SWQPAs can be requested by the State Water Resources Control Board, but any such area would be reclassified as one of the five marine classifications listed above upon entering into the State Park System.

The assignment of marine classifications to specific properties requires the concurrence of agencies other than the Department and detailed procedures for taking such actions are being developed. As of this writing, two State Park System units have been given one of the above classifications (Emeryville Crescent SMR and Albany SMR) but have yet to achieve the concurrence of the corresponding agency (California Fish and Game Commission).

Finally, two organization structures were individually established as part of special legislation created for two specific units. Since no subsequent amendment to California statute occurred, these two categorizations never became legal classifications. Neither these units nor the classifications that would have been created currently exist in today’s State Park System:

State Historic Farm	SHF
State Urban Recreation Area*	SURA

Full discussion of this set of unit classifications requires two informational notes. First, State Vehicular Recreation Areas are also part of the State Vehicular Recreation and Trails System (SVRATS) which, by legislation, is organizationally separate from the

* Statutes of California, Act of Sept. 30, 1980, ch. 1305, sec. 12(a), 1980 Cal. Stat. 4419.

State Park System. Second, the State Wilderness units, in addition to being a part of the State Park System, are part of a larger California Wilderness Preservation System, as defined in PRC section 5093.3.

CHAPTER II

SUMMARY AND ANALYSIS OF FISCAL YEAR 05/06

The State Park System currently consists of 278 units. The names of these classified units and other unclassified properties appear on Lists 1 and 2 of this document. The number of units within each classification type is as follows:

List 1 - classified units

State Beach	64
State Historical Monument	1
State Historic Park	51
State Natural Reserve	17
State Park	84
State Recreation Area	32
State Seashore	1
State Vehicular Recreation Area	8
Wayside Campground	<u>1</u>

TOTAL UNITS AND PROPERTIES IN STATE PARK SYSTEM	<u>278</u>
---	------------

List 3 - classified internal units

Cultural Preserves	14
Natural Preserves	60
State Wilderness	<u>10</u>

TOTAL INTERNAL UNITS	84
----------------------	----

The number of units and properties on the remaining lists are as follows:

List 4 - "underwater parks"	18
-----------------------------	----

List 5 – minor properties in System	9
-------------------------------------	---

List 6 - trail properties located outside System	11
--	----

List 7 - units and properties, changed identities	61
List 8 - units and properties, divested from Department	63
List 9 - miscellaneous units and properties	26
List 10 – units and properties not operated by the Department	<u>35</u>
 TOTAL NUMBER OF UNITS AND PROPERTIES LISTED IN THIS DOCUMENT	 585*

During the past 12 months, the California State Park and Recreation Commission approved a general plan or general plan amendments for two classified units of the State Park System. These actions and some of the appropriate details are recorded in List 1 and in Chapter VII. The purpose statements from these general plans have been added to the Planning Division’s Access database of General Plan Purpose Statements. The two general plans or general plan amendments and the dates of their approval are:

- A. General Plans approved by the Park and Recreation Commission (2):
- Sinkyone Wilderness SP November 2006
 - Sonoma Coast SB (*see below*) May 2007

During the past 12 months, changes were made in the organizational structure of the field units:

- Sonoma Coast SB was reclassified as a State Park and the general plan was then renamed to reflect this change.
- The Cowell Ranch / John Marsh Home property was classified as a State Historic Park but has yet to be named.
- Carpinteria SB was administratively moved within the Channel Coast District from the Ventura Sector to the newly created Carpinteria Sector.
- Monterey SHP was administratively moved within the Monterey District from the Monterey Sector to the Asilomar Sector.
- Año Nuevo SNR, Año Nuevo SP and Butano SP were administratively moved within the Santa Cruz District from the Santa Cruz Mountains Sector to the San Mateo Coast Sector.
- Limekiln SP, San Simeon SP and William Randolph Hearst Memorial SB were administratively moved within the San Luis Obispo Coast District from the San Simeon Sector to the Coastal Sector. In addition, the San Simeon Sector was deleted.
- Donner Memorial SP was administratively moved within the Sierra District from the Sierra Gold Sector to the Lake Tahoe Sector to correct

an error that was made in the organizational database during the 2003 reorganization.

- The Capital District reorganized to include the following. The State Capitol Sector became the State Capitol and Governor's Mansion Sector. The Historic Sites Sector became the California Indian Heritage Center Sector. The Railroad Sector became the Sacramento History and Railroad Sector. The Leland Stanford Mansion Sector became the Stanford Mansion Sector. Governor's Mansion SHP moved to the State Capitol and Governor's Mansion Sector. Sutter's Fort SHP moved to the Sacramento History and Railroad Sector. Woodland Opera House SHP and the Heilbron Mansion are organizationally linked directly to the Capital District.
- San Timoteo Canyon and Wildwood Canyon were administratively moved within the Inland Empire District from the Canyon Sector to the Perris Sector. In addition, the Canyon Sector was deleted.

For this edition of *Planning Milestones*, dozens of items of new information, revisions, corrections, amplifications, clarifications and cross-references were made to the material contained in the text, tables and chart which were in this document's previous edition.

Although every effort has been made to ensure accuracy, readers who can offer any additions or corrections to the information contained in this document, or any suggestions for this document's improvement, are urged to submit them to the Planning Division at (916) 653-9901.

* Because some units or properties fall into more than one category, some of the reported units and properties are listed twice (Lists 4 and 10).

CHAPTER III

INFORMATION ON THE UNITS AND PROPERTIES; CATEGORIES AND LISTS

This chapter contains the ten category lists. Each list contains the collection of classified units and/or unclassified properties characterized by the title of the list. The divider sheet that precedes each of the four sets of lists offers additional specific information about those lists that immediately follow.

A detailed description of list organization and definitions is outlined in Chapter IV.

A. THE CURRENT STATE PARK SYSTEM

The 278 basic classified units and major unclassified properties identified on Lists 1 and 2 together constitute the California State Park System as of July 1, 2007. Most of the listed units and property's lands and facilities are both owned (and/or leased) and operated by the Department. In a number of cases, however, local government agencies or non-profit organizations manage the units (or certain portions thereof) for the Department under the terms of an operating agreement or a concessions contract. The identity of these units is indicated in their "comments" column.

The total number (and the specific identity) of the basic classified units and major unclassified properties that constitute the State Park System is determined by the Director once a year; the figure being effective each July 1 and remaining the same throughout the fiscal year. Any actual changes made during the fiscal year, new units classified, new properties added, or units or properties combined or divested from the system, are not accounted for in the official system total, as reported in this document, until it is revised on the following July 1.

List 1 - Basic Classified Units

All of the units in this list have been classified by the action of the State Park and Recreation Commission or (in very rare instances) by the California Legislature.

It should be noted that a number of officially classified units do not appear on this list because they are not among the 278 basic classified units and major unclassified properties which constitute the current State Park System. They are not part of the current system due to one of the following reasons:

- They are classified as one of the three types of internal units (see List 3). These units are physically situated within one or more of the system's basic classified units, and to include them in the system's list of basic classified units and major unclassified properties would be a form of double counting; or
- They have, in a variety of ways, changed their identity by changes in name, classification or by combining with another unit (see List 7); or
- They have been divested by the Department by transferring their ownership to other government jurisdictions or to another organizational entity (see List 8); or
- They were classified prior to actually becoming the Department's property, and were ultimately not brought into departmental ownership (See list 9).

It should be noted that List 1 includes two properties (Albany SMR and Emeryville Crescent SMR) which are marine protected areas that have been classified by the State Park and Recreation Commission but which have not yet received the necessary concurrent approval of the Fish and Game Commission.

List 2 - Major Unclassified Properties

These are Department-owned or managed properties which are significant in terms of their resource values or their size. Most of these properties are not proximate to or associated with an existing major classified unit. The Department anticipates that, at some future date, the State Park and Recreation Commission will officially classify most of them as new, individual units of the State Park System.

It should be noted that this list currently includes two units and/or properties (California State Capitol Museum and California State Mining and Mineral Museum) where the Department neither owns nor leases any land.

Albany SMR(*)	223	1985	Dec 2002						Located in Alameda County adjacent to Eastshore State Park SS. Operated through JPA by East Bay RPD since 1998. Unit will not become officially classified until action is also taken by the CA Fish and Game Comm. Formerly part of the East Shore Park project. Also known as Albany Mudflats.
Burleigh H. Murray Ranch	285	1979			DPL Oct 2000				Located in San Mateo county. Includes Rancho Raymundo; the unit number had been previously assigned to Baker SB.
California State Capitol Museum	357	1991			DPL Oct 2000				Located in Sacramento County. Museum facility staffed by the Department through an interagency service contract with the Legislative Joint Committee on Rules (property itself owned by the Legislature).
California State Mining and Mineral Museum	707	1999			DPL Oct 2000				Located in Mariposa County. Artifacts and materials transferred to Department from the Department of Conservation by Chapter 66, Statutes of 1999. Found in PRC Section 5006.49.
Delta Meadows	338	1985							DPL Oct 2000 Located in Sacramento County. Property is owned and staffed by the DPR.
Emeryville Crescent SMR(*)	2251985	Dec 2002							Located in Alameda County adjacent to Eastshore State Park SS. Operated through JPA by East Bay Regional Park District since 1998. Unit will not become officially classified until action is also taken by the CA Fish and Game Commission. Formerly part of the East Shore Park project.

* Classified by State Parks Commission action but not concurrently by Fish and Game Commission action.

B. AREAS INTERNAL TO STATE PARK SYSTEM UNITS

List 3 - Classified Internal Units

Three types of classified units may exist only as portions of other, larger classified units. These three classifications, which provide enhanced resource protection for the areas that have been so designated, are the Cultural Preserve (CP), the Natural Preserve (NP), and the State Wilderness (SW). These units are commonly referred to as "internal units" and sometimes "sub-units."

List 4 - Unclassified "Underwater Parks"

As part of certain classified units, specific underwater areas have been acquired in fee or (far more commonly) are leased from the California State Lands Commission. In the case of units bordering the Pacific Ocean or its estuaries, the seaward boundary of the leased "underwater park" will be based either on the distance from the mean high tide or on the depth of the water from its surface to the seabed below. These distances vary considerably among "underwater parks," each according to the terms of the specific lease.

Such ownership or leases give the Department some additional management capability in the protection and management of the natural, cultural and recreational resources found in these underwater areas. The biotic resources located in the waters above all of the underwater lands, leased or owned, remain under the jurisdiction of the California Department of Fish and Game. The State Lands Commission retains rights to mineral extraction from the sea floor.

The term "underwater park" has long been used informally by the Department and has appeared in many publications and documents. It has, however, no official (legislative or administrative) basis or standing. These underwater parks do not have specific individual names; they are an integral part of the classified units in which they are situated.

It should be noted that PRC Section 5019.56(b) describes a unit classification of Underwater Recreation Areas, a unit which consists "...of areas in the underwater environment selected and developed to provide surface and subsurface water-oriented recreational opportunities, while preserving basic resource values for present and future generations." No units of this type have been created by the State Park and Recreation Commission.

In 2000, the Legislature created five new unit classifications which apply only to underwater or marine areas (see Chapter I). It is expected that, in the future, most of the State Park System's "underwater parks" will receive one of these new classifications and thereby will become individual units separate from the units of which they are now a part. When this occurs, these reclassified units will be added to List 1.

List 3 - Classified Internal Units

<u>Internal Unit Name/ Parent Unit Name</u>	<u>Unit Number</u>	<u>Naming and Classification</u>	<u>Resource Inventory</u>	<u>Purpose Statements</u>	<u>RMP/ Resource Element</u>	<u>GDP/ General Plan</u>	<u>GDP and General Plan Amendments</u>	<u>Comments</u>
Ah-Ha-Kwe-Ah-Mac/Stonewall Mine CP Cuyamaca Rancho SP	909	Mar 1983	Mar 1983					430 acres
Anderson Island NP Folsom Lake SRA	397	Sep 1974	Aug 1974	SP Dec 1975				10 acres
Anderson Marsh NP Anderson Marsh SHP	970	Jun 1985	Jun 1984					540 acres. Unit number changed from 926 on 7-1-03.
Antone Meadows NP Burton Creek SP	365	Jul 1978	Jun 1978					160 acres
Anza-Borrego Desert SW Anza-Borrego Desert SP	624	Mar 1981	Feb 1981					297,400 acres. The former Sheep Canyon NP plus the San Ysidro Mountains roadless area. Boundary revised Jan 1986.
Arena Rock Marine NP Manchester SP	930	Jul 1987	Jun 1987					500 acres
Asilomar Dunes NP Asilomar SB	993	Sep 2004						25 acres
Barrel Springs CP Ocotillo Wells SVRA	963	Mar 1983	Feb 1983					1 acre. Unit number changed from 913 on 7-1-03.
Big Lagoon Forest, East NP Harry A. Merlo SRA	964	Jun 1983	Mar 1983					80 acres. Unit number changed from 914 on 7-1-03.

Salt Point SP	248							940 acres; State Lands Commission lease to July 30, 2029; special DFG rules on Gerstle Cove.
San Elijo SB	654							545 acres, State Lands Commission lease to Aug. 31, 2038.
Silver Strand SB	614							3,538 acres in DPR ownership, plus 40 acres leased from State Lands Commission (until 8/30/2021) with authorization of the U.S. Navy.
Sonoma Coast SP	209							667 acres, State Lands Commission lease to July 30, 2029.
Van Damme SP	142							20 acres, State Lands Commission lease to July 30, 2029.

C. MISCELLANEOUS DEPARTMENTAL PROPERTIES

List 5 – Minor System Properties

This list contains a number of small properties which are not associated with and are usually located at some distance from any of the State Park System's basic classified units or major unclassified properties. The Department's Planning Policy and Programming Committee has determined that these properties are not appropriate for future State Park and Recreation Commission classification as new, separate units. The direct management of these properties, or their management through another agency, is overseen by the System's appropriate district office.

Since 2001, the State Park System has been evaluating and accepting for ownership and management a number of very small coastal access property easements which had been dedicated to the California Coastal Commission as one of the conditions of its issuing permits for development on private property. It is expected that each of these small parcels will be managed in conjunction with a specific classified park unit or a major unclassified property, all of which are found on Lists 1 and 2 of this report. Therefore, these coastal access properties will not become additions to List 5, nor will they otherwise be referred to in this document.

List 6 - Trail Properties Located Outside Units

The Department has made two major legislatively mandated efforts to establish a statewide system of trails that were outside of and generally unrelated to the State Park System and its units.

The first effort was to create the California Recreational Trails System, which was intended to be a 3,000-mile statewide, long-distance, rural-oriented system known as the California Riding and Hiking Trail. This program was authorized and begun in 1945, but was not strongly pursued because the power of eminent domain was not available to the Department for the purpose of land acquisition, and because public support for such long trails was seen as inadequate.

The second effort, undertaken in the early 1970s, was in response to The California Recreational Trails Act (PRC Section 5070 *et seq*). This Act sought to provide a set or system of shorter trail segments which would be close to major population centers and, in some instances, would emanate from and even connect units of the State Park System.

This list recognizes those efforts, indicating counties where the lands needed for the trails were sought, lands mainly in the form of easements and rights-of-way, with very little purchase of lands made in fee. The amount of property reflected by the entries in List 6, both land owned by the Department in fee and departmental easements in the lands owned by others, is very modest.

List 5 - Minor System Properties

Riding and Hiking Trails	580							Former Southern Region, miscellaneous trails; project inactive.
Santa Clara/Santa Cruz Trails	483							Project inactive.
San Mateo County Trails	478							Project inactive. Ownership of 2.26 acres and 0.05 acres leased.
Ventura County/Santa Barbara County Trails	504							Project inactive.

D. DEPARTMENTAL PROPERTIES - SOME HISTORY

List 7 - Units and Properties That Have Changed Their Identities

These departmental lands, classified units or unclassified properties, do not today retain their original identity or status. The identity of these lands was altered or lost altogether at some point in the past when their names were changed or when they were combined with another unit of the State Park System, sometimes to form an altogether new park unit. Information about these units and properties has been collected in List 7 as a matter of historic record. This information will record their former existence, as well as provide some capability to cross-reference certain information found in this report and in other documents.

This list does not include units where only the unit's classification has been changed or where there has been only a very minor change in the unit's name. Such changes appear in the "Comments" column entry for the appropriate unit or property.

This list does not include classified units and other properties which were at one time but are no longer a part of the State Park System. Such divested units and properties appear in List 8.

List 8 – Units and Properties That Have Been Divested from the Department

These are classified units and unclassified properties which were once owned by, managed by, and/or planned for or developed by the Department but which now have no association with the State Park System. These lands have been divested by legislative action and their ownership has been transferred to other public agencies (federal, state or local), to non-profit organizations, or to private ownership.

List 9 – Units and Properties That Fit Into No Other Category

These are classified units and unclassified properties that have in the past been associated in some manner with the State Park System, but that do not seem appropriate to place on any of this report's previous eight lists. Their former association with the system is explained in the list's "Comments" column.

San Mateo Creek Wetlands NP	922	Apr 1984						Located in leased area of San Onofre SB, reverted to the U.S. Navy in 1985. Deletion recorded Dec 2002.
Seal Rock SB	287	Nov 1969		SP Jul 1959 SP Dec 1975				Transferred to National Park Service Feb 1977, now in Golden Gate NRA.
Seccombe Lake State Urban Recreation Area	598	Oct 1980						GP prepared by City of San Bernardino and approved by Director. Named by the legislature, SB 1446 (1980); Most of unit transferred to the City of San Bernardino in 1992. Unit never classified or legitimized by statute. See List 5.
Sharp Park SB	472	Nov 1969		SP Jul 1959		Nov 1961		Formerly part of San Mateo Beaches SP. Transferred to California Wildlife Conservation Board Jul 1973.
Simi Valley SRA	582							Transferred to Ventura Co. Mar 1983 in exchange for Mandalay SB; unit renamed Oak County Park.
Squaw Valley SRA	328	May 1963		DPM Apr 1966				Originally a SP, reclassified to SRA May 1963. Transferred to Tahoe National Forest 1972. The unit number was given to the (then) New Leland Stanford Mansion SHP.
Stinson SB	236	Jul 1963		SP Jul 1959				Originally Stinson Beach SP; reclassified SB Jul 1963. Transferred to National Park Service Apr 1977, now in Point Reyes National Seashore.
Stunt Ranch	413							Acquired in 1981. Transferred to Santa Monica Mountains Conservancy in 1987.
Tao House	234							DPR acquired house and 14 acres in 1972. Transferred to NPS Jul 1980. Operated by the NPS as the Eugene O'Neill National Historic Site.

List 8- Units and Properties That Have Been Divested from the Department

July 1, 2007

<u>Unit/Property</u>	<u>Unit Property #</u>	<u>Naming and Classification</u>	<u>Resource Inventory</u>	<u>Purpose Statments</u>	<u>RMP/ Resource Element</u>	<u>GDP General Plan</u>	<u>GDP and General Plan Amendments</u>	<u>Comments</u>
Topanga SB	574	Jan 1976		DPG Nov 1986	Nov 1986	Nov 1986 Jan 1990		Unit GP printed together with GP for Will Rogers SB. GP prepared by Los Angeles County. Unit Legislatively transferred to Los Angeles County, Sep 15, 1995; Chapter 472 (1995).
Willowbrook SRA	506	Oct 1978		DPG Oct 1978*	Oct 1978*	Oct 1978*		GDP prepared by Los Angeles County. Quitclaimed to Los Angeles County Jul 1988, renamed Earvin (Magic) Johnson Regional County Park.
Yosemite Valley	---							Granted (along with the Mariposa Grove of Big Trees) to California by Congress in 1864; returned by the state to federal government in Jun 1906 and added to Yosemite National Park (which had been established 1890).

<u>Unit/Property</u>	<u>Unit Property #</u>	<u>Naming and Classification</u>	<u>Resource Inventory</u>	<u>Purpose Statements</u>	<u>RMP Resource Element</u>	<u>GDP/ General Plan</u>	<u>GDP and General Plan Amendments</u>	<u>Comments</u>
Abbey Bridge Reservoir	---							A potential unit for which the Master Plan Review Committee, in the early to mid-1960's, was to prepare a Declaration of Purpose. No work done on a declaration for this property, and its identity is not currently known.
Buena Vista SRA	(011)			DPM undated*				Kern County. Associated with DWR project.
Bushy Lake	---							Sacramento County. Part of Cal-Exposition, given special protected status by PRC 5384; to be managed as if a NP. Managed by the Department from 1973 to 1982.
Cal-Exposition	700							Sacramento County. Technically, never a unit of the SPS, transferred to an independent State Board.
California State Railroad Museum								Located within Old Sacramento SHP. Technically, never a unit of the SPS.
Corral Hollow Fishing Access site	(012)			DPM undated*				Associated with California Aqueduct project
Dixie Refuge Reservoir	---							A potential unit for which the Master Plan Review Committee, in the early to mid-1960's, was to prepare a Declaration of Purpose. No work was done on a declaration for this property, and its identity is not currently known.
Dredger Tallings Reservoir	---							A potential unit for which the Master Plan Review Committee, in the early to mid-1960's, was to prepare a Declaration of Purpose. No work was done on a declaration for this property, and its identity is not currently known.

Orestimba Wayside	335							Stanislaus County. Proposed unit associated with California Aquaduct land. Transferred to DWR Nov 1969. Unit number reassigned to Railtown 1897 SHP.
Peace Valley SRA	578	Jan 1974	Aug 1972	DPG Jan 1974	Jan 1974* SP Dec 1975	Jan 1974*		Los Angeles County. Undeveloped DWR land, project dropped Oct 1977.
Purisima Creek Redwoods Open Space Preserve	---							San Mateo County. Owned by Mid-Peninsula Open Space District, operated by DPR. Also known as Whittemore Gulch.
Pyramid Lake SRA	581	Jul 1974	Jun 1974		Mar 1971*	Mar 1991*		Los Angeles County. State Water Project unit; owned by DWR; managed by USFS. DPR prepared a Mar 1971 "Recreation Development Plan" for DWR. Amendment sent to DWR Jan 1972. Commission deleted unit from system Feb 1975.
Ritter Canyon SRA	503	Jan 1974	Jan 1973	DPG Jan 1974 SP Dec 1975	Jan 1974*	Jan 1974*		Los Angeles County. Undeveloped DWR land, project dropped.
South San Joaquin SRA (project)	(003)			DPM Jun 1966				Undeveloped DWR land.
Tupman SRA	(010)			DPM undated*				Kern County. Associated with DWR water project.
Usal Ranch	---							Mendocino County. Major addition to Sinkyone Wilderness SP - 1986.
Whipple Mountains	666							Project, circa 1967-68

E. SPECIALIZED DEPARTMENTAL SORTING

List 10 - Units and Properties Not Operated by the State Park System

These classified units or unclassified properties, while part of the State Park System, are not operated by California State Parks on a day-to-day basis. These units are listed in other locations within this publication but in an effort to make the *Planning Milestones* more user friendly have been provided in this format.

List 10 - Units and Properties Not Operated by the State Park System

<u>Unit/Property</u>	<u>Unit Property #</u>	<u>Naming and Classification</u>	<u>Resource Inventory</u>	<u>Purpose Statements</u>	<u>RMP/ Resource Element</u>	<u>GDP/ General Plan</u>	<u>GDP and General Plan Amendments</u>	<u>Comments</u>
Castaic Lake SRA	569							Operated by the County of Los Angeles to Nov 2019.
Cayucos SB	452							Operated by the County of San Luis Obispo to Aug 2019.
Corona del Mar SB	532							Operated by the City of Newport Beach to Aug 2009.
Dockweiler SB	541							Operated by the City of Los Angeles on a month-to-month basis.
Drum Barracks	576							Operated by the City of Los Angeles on a month-to-month basis until a new operating agreement is approved. Total of 0.43 acres.
El Presidio de Santa Barbara SHP	575							Operated by the Santa Barbara Trust for Historic Preservation to Nov 2007.
Fort Ord Dunes SP	476							Land owned by the U.S. Army.
Indio Hills Palms	646							Located in Riverside County. Property managed by Covered Wagon Tours.
Kenneth Hahn SRA	516							Operated by the County of Los Angeles to Jun 2033.
Kings Beach SRA	343							Operated by the North Tahoe Public Utility District to Mar 2009.
Lake Del Valle SRA	764							Operated as Del Valle Regional Park by the East Bay Regional Park District to May 2025.
Leucadia SB	634							Operated by the City of Encinitas to Sep 2009.
Lighthouse Field SB	474							Operated by the City of Santa Cruz to Nov 2007.

<u>Unit/Property</u>	<u>Unit Property #</u>	<u>Naming and Classification</u>	<u>Resource Inventory</u>	<u>Purpose Statements</u>	<u>RMP/ Resource Element</u>	<u>GDP/ General Plan</u>	<u>GDP and General Plan Amendments</u>	<u>Comments</u>
Mandalay SB	676							Operated by the County of Ventura to Sep 2017.
Manhattan Beach Pier	549							Operated by Los Angeles County. Originally Manhattan Beach SP; reclassified SB 7-1-63. Beach and improvements at north end of unit conveyed to Los Angeles County Sep 1995; Chapter 4772 (1995). DPR retains pier and two parking lots. GPPC removed unit from SPS Feb 1996. Unit has the same unit number as Los Encinos SHP.
Marconi Conference Center SHP	213							Operated by the Marconi Conference Center Operating Corporation to Jan 2015.
Mendocino Woodlands SP	159							Operated by the Mendocino Land Camp Association on a month-to-month basis.
Moonlight SB	638							Unit operated by the City of Encinitas to Sep 2009.
Pacifica SB	230							Unit operated by the City of Pacifica to Aug 2015.
Pan Pacific Park	501							Operated by Los Angeles County. Unit name adopted by Director 11-10-81. Development plan prepared Nov 1983 by County of Los Angeles and approved by Director 3-2-84, as per legislation. Unit exempt from SPS classification, as per legislation. Operated by the County of Los Angeles to Mar 2028. To be transferred to L.A. County as per SB 154 (1993). Total of 28.61 acres.
Pigeon Point Light Station SHP	281							This property is operated by the American Youth Hostels.
Pío Pico SHP	551							Site given to the state by the City of Whittier in 1917. Then managed by the State Board of Control.

List 10 - Units and Properties Not Operated by the State Park System

<u>Unit/Property</u>	<u>Unit Property #</u>	<u>Naming and Classification</u>	<u>Resource Inventory</u>	<u>Purpose Statements</u>	<u>RMP/ Resource Element</u>	<u>GDP/ General Plan</u>	<u>GDP and General Plan Amendments</u>	<u>Comments</u>
Placerita Canyon SP	552							Operated by the County of Los Angeles on a month-to-month basis.
Point Dume SB	533							Operated by the County of Los Angeles. DPR owns Point Dume NP and an access easement. Sandy beach and parking conveyed to LA County Sep 1995; Chapter 472 (1995). Management guidance is provided by the General Management Plan of the Santa Monica Mountains NRA.
Point Montara Light Station	282							Located in San Mateo County. Owned by the U. S. Coast Guard, leased to the Department, this property is operated by the American Youth Hostel.
Robert W. Crown Memorial SB	258							Operated by East Bay Regional Park District as Robert Crown Beach to Dec 2016.
San Bruno Mountain SP	205							Unit operated by the County of San Mateo on a month-to-month basis.
Santa Monica SB	557							Operated by the City of Santa Monica through Dec 2006. Management guidance is provided by the General Management Plan of the Santa Monica Mountains NRA.
Stone Lake	355							Located in Sacramento County. Operated by the County of Sacramento on a month-to-month basis. Managed as part of Stone Lake National Wildlife Refuge.
Wassama Round House SHP	376							Operated by the Wassama Round House Association on a month-to-month basis until the Central Valley District can take over management.

Watts Towers of Simon Rodia SHP	518							Operated by the City of Los Angeles to Mar 2028.
Will Rogers SB	562							Operated by the City of Los Angeles. Management guidance is provided by the General Management Plan of the Santa Monica Mountains NRA.
Woodland Opera House SHP	327							Operated by the City of Woodland. Operating agreement expired in Nov 2004 and operations are now month-to-month until a new agreement is finalized.

CHAPTER IV

LIST ORGANIZATION AND DEFINITIONS

Each list's information is presented in a horizontal tabular format. The descriptive title of the category itself appears in boldface type at the top of each page of its list. All properties on each list, the classified units and unclassified properties, appear by name in the table's left-hand column, arranged in alphabetical order. A standard set of information items relevant to each unit or property appears in the row to the right of its name. In these lists, this information is arranged in columns, the headings of which are explained below.

The headings and contents of the columns common to the tables created for the report's ten lists may be explained or characterized as follows:

- *Unit/Property* - the name of the classified unit or unclassified property, along with – where appropriate - its classification (abbreviated). Where the words “state park” is part of the unit name and not its classification, the unit name will be followed by the official classification in parentheses. Where the name of the classified unit or unclassified property has yet to be approved by the State Park and Recreation Commission or legislation, the “current working name” appears in parentheses until subsequent official action is taken.
- *Unit/Property Number* - the unit number is a unique three-digit number which the Department assigns for administrative purposes to a variety of organizational components, including to each classified unit and to most major unclassified properties. A handful of units and properties have numbers which have been put in parentheses; these numbers are not part of the official department numbering system but were created so that the Access Database of Purpose Statements could accommodate these otherwise unnumbered units and properties. These numbers appear only in that database, which is described in Chapter VI.
- *Year Acquired* - this column shows when the first property in the unit was acquired by the state. Note that some units were owned by another state agency before they came into the State Park System. More accurately, this figure is the transaction date, in that it represents the year during which the relevant real estate document was recorded and, if it was not recorded, the date of the document itself. In the case of units and properties not owned by the system, the year is that of the earliest relevant document, or the most current amendment to the lease, permit, memorandum of understanding, operating agreement, etc. This column is used only for Lists 1 and 2.
- *Unit/Parent Unit* – “parent unit” is a term coined for this report and used only with List 3. It is the name of the larger classified unit in which the subject internal unit is located.
- *Naming and Classification* - the date on which the property was named (or renamed) and/or classified (or reclassified). The State Park and Recreation Commission or the Legislature usually takes both actions at the same time, by resolution or by legislative action, respectively, so the indicated date almost always represents both

actions. The naming and classification process is referred to in Chapter VI of this report.

Prior to the 1950s, properties were named and given one of the two then-available classifications (SP, SHM) at or soon after the time of their acquisition. At hearings held in May, July and September of 1963, the State Park and Recreation Commission reclassified many existing units into classifications which legislation had recently made available (SB, SHP, SR, SRA), also renaming a few of them in this process. An asterisk (*) next to any of these dates indicates that these State Park and Recreation Commission actions made no change in the subject unit but simply reaffirmed both the unit's then-current name and classification.

- *Resource Inventory* - this document or collection of materials was known in earlier years as the Inventory of Features. What is recorded in the table is the date of the completion of this basic inventory of the natural, cultural, aesthetic and recreational resources found in the unit or property. In earlier years, the Resource Inventory was a distinct, separate publication that may or may not have been followed by the preparation of a General Development Plan. From the late 1960s to the mid 1990s, the Resource Inventory was an integral part of the unit-level general planning process, and is used as the basis for the plan's required Resource Element (see explanation for the "RMP/Resource Element").

Note that the Resource Inventory is not the same thing as the Resource Summary, a much briefer document which is required by the State Park and Recreation Commission as background information in preparation for its action to classify or reclassify a unit.

- *Purpose Statements* – this is a phrase used to encompass four kinds of statements – Statements of Purpose, Declarations of Purpose, Sense of Place (or Spirit of Place) statements and Vision Statements. These items describe the unit's primary values and features and indicate the Department's main objectives in their management. Over the years, these statements have appeared in a number of printed sources, and have received different levels of official approval. The information immediately below identifies the sources of these different types of purpose statements, and shows the code used in this report's tables to identify the type and source of each individual statement. Purpose statements with an asterisk (*) exist only in draft form and were not approved.
 - *SP* - "*Statement of Purpose*" – two large sets or lists of such statements were prepared by the Department. The first list, dated July 27 1959, was approved by the Director. The second list, dated December 29, 1975, was approved only at the level of the Chief of the Resource Management and Protection Division.
 - *DP* - "*Declaration of Purpose*" – this more common type of purpose statement has been issued on an individual basis as a component of a variety of unit-level planning documents. Distinguishing among them as a reflection of their source, this report identifies variations on these declarations as follows:

- ◆ *DPM - Master Plan Review Committee*: Between 1963 and 1966, a set of individual declarations were prepared by a staff committee and approved in batches by both the Director and the State Park and Recreation Commission. In a few cases, the Commission indicated in the process of giving its approval that a unit's Declaration of Purpose should be considered as equivalent to its Master Plan.
- ◆ *DPG – Master Plans, General Development Plans and General Development Plan Amendments*: Individual declarations were prepared for and published in most of such plans, which were prepared between the early 1960s and 1980. Declarations of Purpose became required by law [see PRC section 5002.2(b)] after 1972. Prior to 1972, these plans were approved by the Director; subsequently, starting with Doheny State Beach and San Onofre State Beach, approval by the State Park and Recreation Commission was required.
- ◆ *DPG (also) - General Plans and General Plan Amendments*: With the new type of legislatively-mandated plan (with the word 'development' no longer in the title) first appearing in 1978 and continuing to the present. Individual declarations were prepared as part of the general planning process and approved by the State Park and Recreation Commission as a part of the general plan.
- ◆ *DPI - Interpretive Prospectus*: These five to ten-page documents, prepared during the period from the 1970s through the late 1980s, were highly generalized plans for the interpretation of a unit's natural, cultural and recreation resources. They were intended to be approved at the division chief level. Those declarations marked with an asterisk (*) are draft Interpretive Prospectuses which did not receive official approval.
- ◆ *DPR - Resource Management Plans or Resource Elements*: From 1972 to present, Resource Management Plans were printed as part of General Development Plans. There are some Resource Management Plans that are separate documents independent of General Development Plans, some of which have official approval and others do not. Resource Elements are specific chapters in current, post-1972 General Plan documents and, as such, are approved by the State Park and Recreation Commission. In the late 1990s, it was determined that a general plan did not have to have a specific, identifiable Resource Element, as long as the materials which such an element would cover could be, collectively, found throughout the document. Many such plans therefore have no identifiable Resource Element.
- ◆ *DPN - Naming and Classification*: In two instances, both in January 1999, proposed declarations were included as part of the Resource Summary given to the State Park and Recreation Commission as part of the material needed to take action on a unit's naming and classification. Their transmittal to the Commission implies their approval by the Director.
- ◆ *DPL – List of the GPPC*: This is list of 71 Declarations of Purpose which the

staff had prepared for the system's major unclassified properties and for those classified units which had a purpose statement which had been prepared no more recently than 1975. The General Plan Policy Committee (GPPC) assigned the work, which was reviewed by the Director and sent to the State Park and Recreation Commission as an informational item at its 10/2000 meeting. Note that the GPPC has since been renamed the Planning Policy and Programming Committee (PPPC).

- ◆ UNK – The sources of these statements are not known.

Two other types of purpose statements appear in this collection, as indicated below.

- SPS - "*Sense of Place*": Starting in 1992, general plans contain these often lengthy and somewhat poetic statements, which describe the intrinsic and less tangible values of the unit and indicate the emotional and intellectual qualities of the experience which the visitor may be expected to enjoy while visiting the unit. In some cases, these are called "Spirit of Place" statements
- SPV – "*Vision Statement*": Starting in 1999, many general plans contain these statements, which provide a broad overview of what the unit should be as a result of implementing the plan. It shows the unit as a created ideal.

Each entry in this Purpose Statement column has two parts, (1) the set of letters (shown immediately above) indicating the source of the statement and (2) the date indicating the month and year when the statement was approved.

- *RMP/Resource Element* – this is the date of the completion of a body of resource information and resource management policy guidance for the unit. The Resource Management Plan was published as a portion of the General Development Plan document. When this type of plan document was replaced by General Plans, the Resource Element became a separate, identifiable, mandated chapter in the plan document. After 1999, Resource Element types of materials, while identifiable as such, were allowed to appear at various locations throughout the plan. In the 1970s and 1980s, in cases where substantial resource planning work was done but no General Plan was subsequently prepared, Resource Management Plans were published as distinct documents.
- *GDP/General Plan* – this is the date of the Director's or the State Park and Recreation Commission's approval of the unit's General Development Plan or the State Park and Recreation Commission's approval of the General Plan. Prior to 1972, documents called Development Plans, Master Plans or (later) General Development Plans (GDP) were prepared for individual units. These plans were relatively brief, some of the earliest ones being only a map with accompanying text. Such plans focused almost entirely on land use and facility development. The later GDPs were broader and more holistic in their scope, and in specific sections dealt explicitly with a variety of resource management considerations. They also contained an analysis of the plan's environmental implications.

The oldest plans, the Development Plans, have a content that is obsolete and are not included in this document. The same holds true for all but one of the Master Plans (Grover Hot Springs SP). Most General Development Plans, however, are sufficiently substantive and perhaps have enough current relevance to be included in this document. They are distinguished from General Plans by the presence of an asterisk (*) placed next to the dates of their approval. A number of the very earliest GDPs often consist of only one or more maps, and are indicated with two asterisks (**).

In 1972, legislation explicitly defined the scope contents of the General Plan document which was to replace the GDP as the source of unit-level planning guidance (see PRC section 5002.2 *et seq.*). The new type of General Plan discusses the basic resources and values of the unit, establishes the objectives for its management, and provides policies and guidelines for achieving those objectives. The General Plan is a document that is more oriented towards resource values, broader in its scope and provides more detail in its background information than did the General Development Plan. The General Plans contains the analyses and the materials on the public review which are required by the California Environmental Quality Act (CEQA) and is approved by the State Park and Recreation Commission.

During the next thirty years, there were a number of anomalies and inconsistencies in the preparation and publication of general plans. For a period in the 1970s, a preliminary plan approved by the State Park and Recreation Commission was not republished in a different, final format. For a period towards the ends of the 1990s, the public comments to the preliminary plan and staff responses to those comments, done as part of the CEQA process, were published separately from the basic plan document.

In the late 1990s, a study by a departmental General Plan Improvement Team (GPIT) determined that the General Plan had become too lengthy and too detailed in its published documentation, its analysis and its recommendations. Within the context of the 1972 Public Resources Code requirements, the GPIT prepared guidelines for the preparation of a new type of general plan that would be shorter, more general, and more of a vision document than a specific, detailed directive document. These guidelines are available in a document, the *Planning Handbook* (2002).

The new general plans provides very broad guidance as to the Department's intentions for the unit, so that additional plans on more specific topics, each additional plan requiring CEQA review, are needed to better define and achieve the plan's goals and objectives. Unlike earlier general plans, new ones may not clearly reflect the specific elements required in the PRC. The actual presence of these materials in the document may only be determined through close examination of the text. All general plans approved during and after 1999 reflect this new approach.

While all general plans are for single units, a few plan documents contain the plans for a number of closely related (in geographic terms) units. Most general plans were prepared by the Department's staff. Those few that were prepared by other government agencies or by private contractors were required to obtain the

legislatively mandated approval of the State Park and Recreation Commission. More detailed information is found in Chapter VIII of this report.

It was noted above that, in the interests of economy, many of the preliminary general plans prepared from the early 1970s through the mid-1980s were not reprinted as final documents after their approval by the State Park and Recreation Commission. In these cases, the word "final" was often hand-written on the cover of the preliminary document and often an explanatory memo and the State Park and Recreation Commission's resolution approving the plan were inserted under the document's front cover.

Unfortunately, this situation is again the case at the time of this writing. The general plan workload from approximately 2003 to the present has been such that many plans, once they have been approved by the State Park and Recreation Commission, have not been subsequently edited and reprinted in what is clearly a final form. Instead, the draft or preliminary plan document which was approved by the State Park and Recreation Commission is made to serve as the final plan. Often, this document will lack any indication (such as the Commission resolution) that it has been approved. In addition, such documents will lack the text of any amendments or editorial modifications that the State Park and Recreation Commission would have made in the course of its approval.

As a matter of historic interest, the 1963-1966 set of Declarations of Purpose might be considered the Department's first accomplishment in the broad scale preparation of unit-level plans. When the State Park and Recreation Commission approved these brief statements, it explicitly recommended to the Director that they "be adopted as the master plans of these areas."

- *GDP and General Plan Amendments* - the date on which the State Park and Recreation Commission approved amendments to all or part of a unit's existing General Development Plan or General Plan. Dates with an asterisk (*) are amendments to General Development Plans rather than General Plans. Most amendments cover very limited aspects of the original plan; when major changes are required, a broadly revised or entirely new General Plan is usually prepared.

Those interested in the history and development of the unit-specific general plan (and closely related studies and reports) should read the *Finder's Guide to General Plan Documents* (January 10, 2000). This document, prepared by the then Northern Service Center, contains a wealth of detailed information on such matters as the nature of the early unit plans, the various and changing levels of plan approval and the many anomalies that exist in the Department's long history of general planning.

- *Comments* - this column provides a wide range of information relevant to the history and current status of the unit or property. Included here are such subjects as relevant legislation, past changes in unit number, name or classification, an indication as to whether the unit's plan was prepared and published individually or as part of a group of units and the identity of the unit's operating agency or organization in those cases where it is not operated by the Department itself. In an admittedly incomplete and unsystematic way, this column attempts to capture items of relevant

or interesting information that would otherwise be scattered or lost. It represents an effort to add some perspective or dimension to the unit and its relationship to the current State Park System.

CHAPTER V

HISTORY OF THIS DOCUMENT

The Beilenson legislation of 1972 (PRC section 5002.2 *et seq*) strengthened and standardized the legal requirements for the land use and management planning that was to be undertaken for individual units of the State Park System. In this legislation, specific steps and requirements were established for the preparation of what was to be called a unit's General Plan. In order to keep track of the unit-level planning that had been accomplished by the Department before 1972, as well as that which was done subsequently in accordance with the new legal requirements, Natural Heritage Section Supervisor Frederick Meyer developed an organized record of such information for each individual unit of the State Park System.

Over time, Meyer expanded his records to include a wider variety of unit-level planning information. It was enlarged to include such matters as the dates of the unit's classification and naming, the date of the approval of a unit Declaration of Purpose, the accomplishment of any substantial resource inventory or resource management planning work, and the amendments to any of the unit-level plans. During this period, Meyer expanded these records to include information on major unclassified properties, units with names which were no longer in use, and units and properties which had been divested by the State Park System. In addition, the records began to include a wide range of "miscellaneous" information on the history and current status of many units and properties. As a result, the records contained a greater and more diverse amount of useful data regarding unit-level planning and management actions.

During the 1980s, after Meyer's retirement, Jim Woodward was instrumental in expanding and updating these records, while Beth Coppedge Walls undertook the annual task of compiling, publishing and distributing the updated information as an internal report of the Resource Protection Division. As General Planning Coordinator from 1988 through 1993, Wayne Woodroof updated and added to the information base of what by then became known informally as the "WWW Report", the Woodward – Walls – Woodroof Report. The last report in this series was dated July 15, 1993.

Following its establishment in 1993, the Department's General Plan Policy Committee (GPPC) assumed the responsibility for updating and producing the WWW Report. In the process of doing this for the GPPC, Bruce Kennedy revised and greatly expanded the single-list format of the earlier report, so that the more than 500 classified units, unclassified properties and certain projects were divided into nine sets of mutually exclusive categories. A great deal of new information about the units and properties was added to the report. The first edition of this new report, entitled *Park Units and Properties Associated with the California State Park System*, was dated October, 1995.

In the next year's edition, dated July 1, 1996, a large map of California, showing the State Park System, was included in a pocket inside the document's back cover. This map identified the State Park System's field districts and showed the names and locations of the system's classified units and internal classified units, as well as of the major unclassified properties located within each district. In 1999, the report was given a new

title, *Planning Milestones for the Park Units and Major Unclassified Properties Associated with the California State Park System*. In early 2001, the responsibility for the annual updating and publication of this report and its accompanying map was given to the Department's Planning Division.

Shortly after the beginning of each fiscal year, the Planning Division will issue a revised edition of *Planning Milestones*, containing changes which occurred during the previous year, and including any corrected or newly discovered information that is relevant to the document's contents. The publication's text will be changed to reflect such materials. Each annual edition will, as a central purpose, specify the exact set of classified units and unclassified properties that collectively constitutes the State Park System as of the report's July 1 publication date. This is the Department's official number in this matter. Copies of each edition will be printed and distributed widely throughout the Department.

The second major purpose of this report is to record the general planning work (including naming and classification work) that has been approved by the State Park and Recreation Commission during the twelve months of the previous fiscal year.

The library of the Planning Division contains the Department's most complete set of the annual *Planning Milestones* publications, as well as its many predecessor documents. The current year's edition, and those of the last few years, can also be found on the Department's Internet webpage <http://www.parks.ca.gov/planning>.

California State Parks produces a variety of maps each year. These may range from unit specific to statewide projections. The map provided with the *Planning Milestones* is the most comprehensive and heavily researched map within the State Park System and as such is considered the official map of California State Parks.

CHAPTER VI

AVAILABILITY OF ORIGINAL AND IN-PROCESS PLANNING MATERIALS

A central purpose of this report is to provide information on the existence of a variety of basic types of unit-level land use and management planning materials, and on the approval dates of these materials. The basic types of information are:

- Unit Names, Classifications and Numbers;
- Resource Inventories, Resource Elements, Resource Management Plans;
- Purpose Statements (Statements of Purpose, Declarations of Purpose, Vision Statements, Spirit of Place [or Sense of Place] Statements);
- Master Plans, General Development Plans, General Plans;
- General Development Plan Amendments, General Plan Amendments; and
- Miscellaneous information on the background and/or current status of a classified unit or a property.

Copies of the actual materials themselves, and the records of their approval, may be found in a number of departmental or state depositories, as indicated below. All of these materials exist as hard-copy (paper). Unfortunately, none of the department's and the state's official document depositories provides an absolutely complete collection of all of the materials, so that some searching may be needed to find the desired item.

Certain of the above-mentioned planning materials also exist in electronic format. For specifics, see the section "Location of Electronic Documents", below.

Description of Materials, by Type:

The six different types of material, identified above, may be described or characterized as follows. (See also the relevant explanatory materials presented in the text of Chapter IV.)

- *Unit Naming and Classification Materials; Assignment of Unit Numbers:* These materials consist of three items - a Resource Summary for the unit, a letter from the Director to the State Park and Recreation Commission suggesting a small number of suitable candidate name(s) and classification(s) that would be appropriate for the unit, and a State Park and Recreation Commission resolution which approves the single name and classification which it has selected and approved.

Naming and classification materials may be found in the Department's Central Records and in the files of the Special Assistant to the State Park and Recreation Commission. Starting in 1995, these three items have been collected as a package; a small and informal document created for each unit that has been named and classified. These documents may be found in the State Park and Recreation Commission's records, the Central Records Unit and the collections of the Acquisition and Development Division. This practice ceased in approximately the year 2000.

The assignment of numbers to classified units and major new properties is the function of the Contracts and Asset Management Section. The assignment of these numbers is done only in response to a request from the property's field management authority or the Planning Policy and Programming Committee.

- *Resource Inventories, Resource Elements, Resource Management Plans:* Resource Inventories are internal documents containing substantive information on a unit's resources, information gathered by the planning staff prior to preparing a General Management Plan or General Plan. These materials are far more detailed than the Resource Summary documents prepared for the naming and classification process (see above). Resource Elements are sections or chapters within the unit's published General Management Plan or General Plan.

Resource Management Plans from the 1980s are unit-wide plans developed independent of (usually prior to) a General Management Plan or a General Plan. Some of these plans have official approval, while others do not. These are not to be confused with more contemporary Resource Management Plans, which usually address a single resource management issue for a unit (e.g. fire management, trail management) and are often prepared subsequent to or independent of a General Plan. These more limited Resource Management Plans are not identified in this document.

Resource Inventories and Resource Management Plans may as documents be found in one or more of the Department's depositories. Resource Elements may be found as a distinct chapter in the appropriate General Plan documents.

- *Purpose Statements:* These are usually brief statements, most of which are only two short paragraphs in length. In general, the first paragraph summarizes the main features and values which were the purpose for acquiring the property for inclusion in the State Park System. The second paragraph indicates the nature of the Department's intended management of the unit. There are four types of "purpose statements": Statements of Purpose, Declarations of Purpose, Sense of Place (or Spirit of Place) statements, and Vision Statements. These purpose statements are found in various sources: collections of them exist in staff-prepared lists (7/1959, 12/1975, 10/2000), and they appear individually in park-specific Interpretive Prospectuses, General Development Plans and in General Plans.

Many units may have more than one purpose statement, each prepared at a different point in time and appearing in a different source document. Regarding the many statements that a single unit may have, some will be unique in their text, while others may simply repeat ones that had been created earlier for the unit. The Department's Planning Policy and Programming Committee has determined that the most recent statement is to be considered the operative purpose statement for the unit.

In May of 2000, a set of 23 hardcopy reports (Xerox and stapled) were created, each containing the extant purpose statements of the units and properties located in one of the (non-OHMVR) then-current districts of the State Park System. Each district office was sent a copy of the report for its own units and properties. Each regional service center was sent a copy of the reports for all of the districts which it served. A copy of all

23 district reports was sent to the Acquisition and Development Division and to the Central Records Unit. Since 2000, the districts have changed their boundaries and revised purpose statement reports have not, to date, been prepared and sent to the reorganized districts.

In July, 2002, a loose-leaf binder of 428 pages was published, with the text of the entire purpose statement database of more than 900 items, including statements for units and properties which had been divested from the State Park System, as well as for those which had at some past time changed in their identity. It also included purpose statements for internal classified units, those units located wholly within other classified units. This collection was assembled by unit or property, each presented in strict alphabetical order, and included the purpose statements for OHV units. A copy of this binder was sent to the Acquisition and Development Division, the Planning Division and the Central Records Unit.

The electronic version of the purpose statement database is updated as of July 1st of each year.

- *Master Plans, General Development Plans, General Plans:* These items exist as maps (most Master Plans, early GDPs) and as published documents (most GDPs, all GPs). Some Master Plans consist only of a map indicating the development proposed for the unit. Master Plans and early General Development Plans were approved by the Director. Later General Development Plans and all General Plans were approved by the State Park and Recreation Commission.

In a few instances, from the early 1970s through the mid-1980s, the preliminary draft of a general plan document – after its approval by the State Park and Recreation Commission – was not republished in final form (in the interests of economy) and thus itself serves as the final plan document. This fact is usually – but not always - indicated by a letter and a copy of the State Park and Recreation Commission resolution inserted into the front of the draft document.

In recent years, there has been no consistent approach to the treatment of the Department's responses to the public comments on preliminary General Plans, comments made in the course of the California Environmental Quality Act (CEQA) public review process and made available to the State Park and Recreation Commission prior to its hearing on the plan (or plan amendment). During the 1980s and early 1990s, some published (approved) plans contained these materials as an appendix, while others did not. Following a policy initiated in 1999 by the Department's Planning Policy and Programming Committee, such materials are now informally "published" separately from the plan itself, as xeroxed materials in a brown ACCO binder, and placed on the shelf next to the published general plan document. These CEQA-oriented documents are issued only in very limited quantities and are placed only in the Department's own depositories.

- *General Development Plan Amendments; General Plan Amendments:* These items exist as published documents. They range in scale from major revisions of many dozen pages to minor amendments which are covered in a very few pages. Most amendments are limited in scope, addressing only a small area of the unit or a

single management topic. These amendments may be found in the same depositories as the general plan documents.

- *Miscellaneous Information:* The purpose of this publication's ten tables' "Comments" column is to provide salient items of information on the history, background and/or current status of the unit or property. This information is intended to give some enlarged perspective to the subject unit or property, something beyond that provided by the information found in the tables' other standard columns.

The information found in the "Comments" column has been gleaned from a wide range of sources, some of which are no longer easily traced. These sources include State Park and Recreation Commission minutes, various studies, reports and memos, and personal conversations with many current and past employees.

Location of Original (Hard Copy) Documents:

The materials described above may be sought in the depositories of this Department and of other state agencies. Since no depository is complete, more than one may have to be visited before finding the needed material.

Department of Parks and Recreation:

The Department itself has four major depositories for the types of materials referred to in this report.

- *Central Records* – This depository contains a copy of most of the Department's general plan-type materials. In addition, it contains the masters for the more recent general plans and general plan amendments, making easy the reprinting of good new copies when demand warrants them. Central Records also contains the very important minutes of past State Park and Recreation Commission meetings and the bulk of past memorandums and correspondence on a wide range of relevant subjects.
- *Acquisition and Development Division* – This depository contains what is perhaps the Department's most complete and certainly the best-referenced collection of plans, plan amendments, resource studies and interpretive prospectuses. The Division's collection was augmented by the even more extensive materials from the Northern Service Center, which was physically relocated and placed within the Division in April 2001.
- *Natural Resources Division* – This depository has many specialized, unpublished, and hard-to-find natural resource studies and documents, in addition to a selection of the more readily available plan documents.
- *DPR Archives* - This depository is the Department's permanent home for studies, surveys, bibliographies, reports, plans, and other records of enduring value created by Department staff. The mission of the Archives is to acquire, organize, preserve, and provide access to the cumulative body of reference documents

and electronic data required for effective stewardship of the full range of natural and cultural resources present in the State Park System.

Some materials of interest may be found in the office of the Assistant Secretary to the California Park and Recreation Commission, the Southern Service Center, and the Long Range Planning Section of the Planning Division.

State Depository Libraries:

Those departmental planning materials which are official published public documents may be found in the State's designated 17 official depository libraries, which are located in different institutions in various cities throughout the State. A list of these libraries may be obtained from the State Library in Sacramento. The materials in all of the State's depository libraries may be accessed through its central computerized catalog system.

Guidance to Original (Hard Copy) Documents

The most detailed listing and analysis of the Department's more than half-century of general planning work may be found in Jim Woodward's *Finder's Guide to General Plan Documents*, dated January 10, 2000. This exhaustively researched document explores the many types of general plan-type efforts, including early drawings and maps, and certain planning reports. Much of the *Finder's Guide's* information on the Department's very earliest planning efforts, as well as on failed or aborted plans, far exceed the level of detail found in this *Planning Milestones* publication.

The *Finder's Guide to General Plan Documents* discusses the level of approval granted to plans at different times, as well as differences in plan document formatting, printing, attachments and distribution. It lists cases where nearby units were planned and published in groups of two or more (see Chapter VII of this document). It provides a lengthy glossary of terms used in the Department's planning work and contains a section on general notes and comments. Finally, it contains a nine-page table listing the planning documents in the Department's possession, along with the date(s) of the State Park and Recreation Commission hearing and publication date, and the name of the project manager, where known.

A loose-leaf binder containing this *Finder's Guide* may be found in the libraries of the Planning Division, the Acquisition and Development Division and of the Central Records Section.

Location of Electronic Documents:

A portion of the documents from which the information in this report is drawn is available in electronic form, and a portion of that may be accessed over the Internet through the Department's website <http://www.parks.ca.gov/planning>.

The more than 900 purpose statements have been entered into an Access database, which is housed at the State Park System Planning Section of the Planning Division. A compact disk (CD) holding this database may be found, along with explanatory materials, in a loose-leaf binder in the libraries of the Planning Division, the Acquisition

and Development Division, and the Central Records Section. Upon request, the State Park System Planning Section can provide the statements for individual units, or the entire collection of statements, in hard copy form. The collection is also available over the Internet through the Department's website <http://www.parks.ca.gov/planning>.

Approximately 165 of the most recent general plans and general plan amendments have been electronically scanned and are available on a set of CDs. These CDs may be found in a loose-leaf binder, in the Planning Division library.

This document itself, *Planning Milestones for the Park Units and Major Properties of the California State Park System*, is available through the Internet on the State Parks website. As is the case with the published version, the digital version will be updated once a year, with each new edition. All of the materials available on the Internet are in a read-only format and may not be altered by the reader.

Over time, more of the planning information cited in this report will be made available electronically and on line. The reader should explore the Department's website to see what is currently available. This Department's basic Internet website address is <http://www.parks.ca.gov>.

Availability of Original or Reproduced Documents:

Copies of the more recent general plans are often available from the office of the district in which the subject park is located. The price of such documents, if a charge is made, is indicated on the inside of its back cover.

Older plan documents and other materials for which extra copies are no longer available, may be specially copied (by Xerox) by the Department in order to fulfill a specific request. The recipient will be charged at the current departmental rate for this service. Government agencies are not charged for these materials.

Approved general plans and those in progress may be accessed by selecting the links at <http://www.parks.ca.gov/generalplans>.

CHAPTER VII

A GRAPHIC HISTORY OF GENERAL PLANNING ACTIVITY

As shown by this document's detailed lists, especially List 1, the Department has been engaging for almost half a century in the work of preparing plans for the protection, development and management of the individual units of the State Park System. The different planning products – the purpose statements, the specialized studies and the plan documents themselves – contain most of the substance of these planning efforts.

The multi-page table, the single-page chart, and the line graph found in this chapter graphically summarize the annual production of the most important of this planning work. This information is shown in terms of calendar years rather than fiscal years, which is the standard time frame used by *Planning Milestones*. The three major types of planning efforts portrayed by these graphics are:

- Unit-level plans
 1. Master plans and general development plans
 2. General plans
- Amendments to unit-level general plans
- Naming and classification of units, and revisions thereto (for the basic units only, not for the classified internal units on List 3)

The noticeable ebb and flow of unit-level planning work over the years largely reflects the availability of the funding and staff resources available to do such work. The choice of which specific units received planning attention at any given time reflects the contemporary sense of departmental priorities. It indicates which plans were believed to be most immediately needed to provide guidance in the management of the unit's resources or its visitors, and/or to provide the basis which would allow for the development of desired facilities.

In reading this table and the chart, the following should be noted:

- The units listed in each of the table's cells are arranged alphabetically rather than chronologically (i.e. in the order of the month of the documents' approval or of the action taken);
- the units are identified by their current names and classification, which in a few cases differ from the earlier names and classification which were in place when the planning work was done and approved;
- the table and the graph contain only units that are currently part of the State Park System. Not recorded is planning that was accomplished for units and properties with names that have been lost through their combination with another unit or through divestiture from the system (see this document's Lists 7-8);
- the large amount of planning work that was accomplished prior to 1970 has been summarized into two time periods, "before 1965" and 1965-1969. This was done to save space on the chart and because many of these early planning efforts are so old as to be considered non-viable;

- units in the table's General Plans row which are *italicized* indicate that the general plan listed there replaced an existing plan for the unit and is not the unit's first general plan;
- units in the table's Plan Amendments row which are *italicized* indicate that the amendment listed there is the second or third amendment (not the first) for that unit's plan;
- units in the table's Naming and Classification row which are *italicized* indicate that the action was for a renaming and/or a reclassification action; and
- the most recent year covered in the table, the chart and the graph - calendar year 2007 - is only half over at the time of the date of this publication; additional planning activity may be anticipated during the last six months of this calendar year.

Annual Production of General Development Plans, General Plans, and Their Amendments; Plus Naming and Classification Efforts and Their Amendments

CHAPTER VIII

MISCELLANEOUS INFORMATION REGARDING GENERAL PLANS

A unit's general plan is a document whose preparation is based on substantial background information, the study of and research into the units' resources, problems and potentials. This work is accomplished over a 12 to 18-month period by a planning team consisting of many types of specialized professionals such as ecologists, botanists, historians, landscape architects, archaeologists and field managers. The plan document itself contains the most salient portions of this background information, with additional and/or less important unpublished detailed material being available in the planning team's files.

Based on this broad, in-depth study, as well as on substantial public input, the planning team develops and recommends policies and programs for the protection and management of the unit's natural, cultural and recreational resources. It provides general guidance for the development of those facilities that will allow the staff to accomplish management goals and which will make the unit's lands and its resources available for the inspiration, appreciation and enjoyment of the visiting public. The plan also recommends appropriate resource-based outdoor recreation facilities for the public's use. The plan includes broad recommendations for educational and interpretive programs to serve the public and, where appropriate, for opportunities for private concessions in the unit.

The completed general plan, when approved by the California Park and Recreation Commission, serves as the Department of Parks and Recreation's definitive statement as to the intrinsic values of the unit and purposes for which they will be managed. The plan is a tool, which informs the public, other public agencies and private organizations, and the park unit's management as to what policies, activities and programs for this unit are appropriate and also (by implication) which would be inappropriate to achieve the plan's objectives. Overall, the general plan provides positive guidance – based on professional research and high-level approval – as to what management activity is appropriate and desired for the unit.

A general plan is deemed to be valid for a ten-year period, absent major and unforeseen changes in the unit and its surroundings. It is a long-term objective of the Department to have a current or valid general plan for every classified unit of the State Park System.

As an aid in researching or understanding the Department's general planning efforts, it may be useful to have additional information on the publication of multi-unit plans, on plans authored by non-departmental entities, and about certain irregularities in the numbering of park units. The following three sections will provide such information.

Additional detailed information and analysis on the Department's half-century of general planning work may be found in Jim Woodward's *Finder's Guide to General Plan Documents* (January 10, 2000).

The ultimate objective of the various types of planning efforts recorded in *Planning Milestones* is the preparation of general plans for individual park units of the California State Park System. It is therefore desirable to understand the very important functions of these plans and the manner in which they are prepared.

A. MULTI-UNIT GENERAL PLAN DOCUMENTS

Most general plans are published as single documents that deal with a single unit of the State Park System. There are exceptions, however, where the plans for two or more units are published in one document. As a less common exception, there have been instances where a group of units are covered in a set of documents, one document per unit, often with an extra document in the set which contains material common to all of the individual units.

Following is a list of general plan documents containing plans for two different units:

- Pismo SB and Pismo Dunes SVRA (Nov 1974)
- Bothe-Napa Valley SHP and Bale Grist Mill SHP (Nov 1976)
- Point Lobos SR and Carmel River SB (May 1979)
- Auburn SRA and Folsom Lake SRA (May 1979, Sept 1979)
- Topanga SB and Will Rogers SB (Nov 1986)
- Brannan Island SRA and Franks Tract SRA (Nov 1987)
- Humboldt Lagoon SP and Harry A. Merlo SRA (Jun 1983)
- Morro Strand SB and Atascadero SB (Apr 1988)

Three general plan documents contain plans for three different units. Their titles and the units they contain are as follows:

- *Santa Monica Mountains State Parks*: Topanga SP, Malibu Creek SP, and Point Mugu SP (Jan 1977).
- *Robert H. Meyer Memorial State Beaches*: El Pescador SB, La Piedra SB and El Matador SB (Oct 1981).
- *State Redwood Parks*: Jedediah Smith Redwoods SP, Del Norte Coast Redwoods SP and Prairie Creek Redwoods SP (Jan 1985).

Following is a list of general plan documents which, as a set, contains plans for a number of coastal units

- *San Mateo Coast Area*: Año Nuevo SR, Bean Hollow SB, Gray Whale Cove SB, Half Moon Bay SB, , Montara SB, Pescadero SB, Pomponio SB, San Gregorio SB, Thornton SB (Jun 1979).
- *Santa Barbara/Ventura Coastal State Parks*: Carpenteria SB, El Capitán SB, Gaviota SB, McGrath SB , Point Sal SB, Refugio SB, San Buenaventura SB; a separate volume contains materials and data for the entire group of units and the EIR materials (Jul 1979).
- *San Diego Coastal State Park System*: Cardiff SB, Carlsbad SB, Leucadia SB, Moonlight SB, San Elijo SB, Silver Strand SB, South Carlsbad SB, Torrey Pines SB and Torrey Pines SR; a separate document contains summary materials and data for the entire group of units and the EIR materials (Nov 1983).

In addition to the plans noted above, all prepared by the Department, there are two multi-unit “general plan/general management plan” efforts that have been undertaken jointly by the Department and the federal National Park Service.

- *Redwood National and State Parks*: This plan includes the state's Jedediah Smith Redwoods SP, Del Norte Redwoods SP and Prairie Creek Redwoods SP, along with the federal Redwoods NP. This plan was approved Oct 1999 by the State Park and Recreation Commission.
- *Santa Monica Mountains National Recreation Area: a General Management Plan*: This plan was prepared with assistance from the Department of Parks and Recreation and the state's Santa Monica Mountains Conservancy. This plan was not taken to the State Park and Recreation Commission. It was approved on March 5, 2003 by the Western Regional Director of the NPS. The document's planning area includes the following state units – Leo Carrillo SP, Malibu Creek SP, Malibu Lagoon SB, Point Dume SB, Point Mugu SP, Robert H. Meyer Memorial SB, Santa Monica SB, Topanga SP, Will Rogers SB and Will Rogers SHP. This General Management Plan is considered only advisory as it relates to state park units.

B. GENERAL PLANS PREPARED BY OTHER ENTITIES

(by other agencies and by private consultants)

Most of the Department's general plans are prepared by its own staff. There have been and still are exceptions to this rule, cases where a general plan is prepared in one of four other ways:

- By a private consulting firm, selected by and responsible directly to the Department
- By one or more private consulting firms, selected by the Legislature
- By an agency of local government (city or county), using either its own staff or a private consultant. This is often done when the agency manages the unit through an operating agreement with the Department
- By a federal agency, with participation by the Department

As of this writing, the majority of general plans now being prepared are done by private consultants responsible to the Department. The following tables identify the general plans which in the past have been prepared by entities other than the Department.

Unit Name	Date of GDP or GP	Responsible Agency for Doing the Plan	Consultant Name and Location (if known)	DPR Liaison Person (if known)
------------------	--------------------------	--	--	--------------------------------------

General Plans for Individual Current SPS Units:

Asilomar SB	1975	DPR	Hall & Goodhue Group – SF	G. Rackelmann
Asilomar SB	1983 Am	DPR	Hall, Goodhue & Haisley – SF	G. Rackelmann
Bolsa Chica SB	1987 Am	Huntington Beach	Barrett Consulting Group	N/A
Brannan Island SRA and Franks Tract SRA	1988	DPR	Eckbo, Dean, Austin and Williams	A. Kolster
Castaic Lake SRA	2002	LA County	LA County	S. Treanor, R. Guiney
Dockweiler SB	1992	LA County	Gruen Associates – LA	N/A
Doheny SB	2004	DPR	EDAW, San Diego	W. Woodroof
Eastshore State Park SS	2002	East Bay Regional Park District	Neuwirth & Associates; Wallace Roberts & Todd, LLC; LSA Associates, Inc.	R. Ettinger
Fort Ord Dunes SP	2004	DPR	Environmental Science Associates	J. Spann
Kenneth Hahn SRA	1983	LA County	Kato & Jordan/Takata Assoc – LA	N/A
Kenneth Hahn SRA	2002	Mandated by the State Legislature	Environmental Science Associates; Community Conservancy International; MIA Lehrer + Associates	W. Woodroof
Kings Beach SRA	1980	N Tahoe R&PD	R&PD staff	N/A
San Bruno Mountain SP	1982	San Mateo County	Inouye/Dillingham – Berkeley	N/A
Marconi Center SHP	1992	DPR	HGHB – SF	J. Quayle
Olompali SHP	1988	DPR	Royston, Hanamoto, Alley, Abey –SF	D. Hook
Pacifica SB	1990	City of Pacifica	Royston, Hanamoto, Alley, Abey- SF	D. Hook

Unit Name	Date of GDP or GP	Responsible Agency for Doing the Plan	Consultant Name and Location (if known)	DPR Liaison Person (if known)
------------------	--------------------------	--	--	--------------------------------------

General Plans for Individual Current SPS Units:

Santa Monica SB	1980	City of Santa Monica	City staff	N/A
Sugarloaf Ridge SP	2004	DPR	EDAW, Inc. Sacramento & San Francisco	D. Blau
Tahoe SRA	1981	Tahoe City PUD	District staff	A. Kolster
The Forest of Nisene Marks SP	2003	DPR	Rayston, Hannamoto, Allen & Abey; ESA; Albion Environmental; Beneficial Designs	R. Fairfield
Will Rogers SB*	1986	LA County	Gruen Associates - LA	G. Rackelmann

Note: "Am" = general plan amendment
 (*) = two plans printed in one document
 N/A = information not available

Unit Name	Date of GDP or GP	Responsible Agency for Doing the Plan	Consultant Name and Location (if known)	DPR Liaison Person (if known)
-----------	-------------------	---------------------------------------	---	-------------------------------

General Plans for Individual Units which have been Divested from the SPS:

Durham Ferry SRA	1980	San Joaquin Co.	County staff	A. Kolster
Otterbein SRA	1978	LA County	County staff	N/A
Oxnard SB	1984	City of Oxnard	City staff?	N/A
Topanga SB*	1986	LA County	Gruen Associates – LA	N/A
Willowbrook SRA	1978	LA county	County staff	A. Kolster

Note: (*) = two plans printed in one document

Federal General Management Plans Involving a Group of Current SPS Units:

Del Norte Coast Redwoods SP, Jedediah Smith Redwoods SP, Prairie Creek Redwoods SP	1999	National Park Service – management plan for Redwoods NP	NPS' Denver Service Center	Richard Sermon Wayne Woodroof
Leo Carrillo SP, Malibu Creek SP, Malibu Lagoon SB, Point Dume SB, Point Mugu SP, Robert H. Meyer Memorial SB, Santa Monica SB, Topanga SB, Will Rogers SB, Will Rogers SHP	2003	National Park Service – general management plan for Santa Monica Mountains National Recreation Area	NPS' Denver Service Center	Russ Guiney

C. UNIT NUMBERS USED BY TWO UNITS OR PROPERTIES

For purposes of accounting and identification, the Department assigns a unique three-digit number to each classified unit and major unclassified property. This system has not been used perfectly, and in a few instances two names can be associated with the same number. This has happened in two types of situations.

1. Renaming a Unit

An existing unit or property is renamed and the number is carried from the first name to the new name.

Unit Number	Original Name	New Name
144	Paul M. Dimmick WC	Navarro Redwoods SP
222	Cascade Ranch property	Año Nuevo SP
258	Alameda Memorial SB	Robert W. Crown Memorial SB
264	Pismo Dunes SVRA	Oceano Dunes SVRA
339	Sugar Pine Point SP	Ed Z'berg - Sugar Pine Point SP
543	Joshua Trees SP	Saddleback Butte SP
563	Taylor Yard	Rio de Los Angeles State Park SRA
578	Cornfield	Los Angeles SHP

2. Reuse of a Formerly Assigned Number

A unit or property is removed or divested from the State Park System and its number is later assigned to a new unit or property.

Unit Number	Earlier Unit that was Divested	New Recipient of The Number
285	Baker SB	Burleigh H. Murray property
328	Squaw Valley SRA	Leland Stanford Mansion SHP
335	Orestimba Wayside	Railtown 1897 SHP
382	Camillus Nelson SHF	Lake Valley SRA
546	Manhattan SB*	Los Encinos SHP*
578	Peace Valley SRA	Los Angeles SHP/formerly Cornfield
597	Heart Bar SP	Verdugo Mountains property

(*) = both units may have had the same number simultaneously for a period of time.

CHAPTER IX

STATE PARK SYSTEM FIELD ORGANIZATION

The field organization of the State Park System is in constant flux to develop a more efficient and logical administrative and logistical representation of California State Parks. The following table is a quick reference of the organization of the State Park System according to district, sector, unit and subunit.

District	Sector	Unit	Subunit
Angeles District	Los Angeles Sector	Castaic Lake SRA	
		Dockweiler SB	
		Kenneth Hahn SRA	
		Los Angeles SHP	
		Los Encinos SHP	
		Pío Pico SHP	
		Placerita Canyon SP	
		Rio de Los Angeles State Park SRA	
		Santa Monica SB	
		Santa Susana Pass SHP	
		Verdugo Mountains	
		Watts Towers of Simon Rodia SHP	
		Will Rogers SB	
	Malibu Sector	Leo Carrillo SP	Nicholas Flat NP
		Malibu Creek SP	Kaslow NP
			Liberty Canyon NP
			Udell Gorge NP
		Malibu Lagoon SB	
		Point Dume SB	Point Dume NP
		Point Mugu SP	Boney Mountain SW
	La Jolla Valley NP		
	Topanga Sector	Topanga SP	
Will Rogers SHP			

District	Sector	Unit	Subunit
Capital District		Heilbron Mansion	
		Woodland Opera House SHP	
	California Indian Heritage Center Sector	State Indian Museum (SHP)	
	Stanford Mansion Sector	Leland Stanford Mansion SHP	
	Sacramento History and Railroad Sector	Old Sacramento SHP	
		Sutter's Fort SHP	
		Railtown 1897 SHP	
	State Capitol and Governor's Mansion Sector	California State Capitol Museum	
		Governor's Mansion SHP	
	Central Valley District	Calaveras Sector	Bethany Reservoir SRA
Calaveras Big Trees SP			Calaveras South Grove NP
Caswell Memorial SP			
Columbia SHP			
Indian Grinding Rock SHP			
Turlock Lake SRA			
Four Rivers Sector		George J. Hatfield SRA	
		Great Valley Grasslands SP	
		McConnell SRA	
		Pacheco SP	
		San Luis Reservoir SRA	
San Joaquin Sector		California State Mining & Mineral Museum	
		Millerton Lake SRA	Kechaye CP
		Wassama Round House SHP	

District	Sector	Unit	Subunit	
Channel Coast District		El Presidio de Santa Barbara SHP		
		Carpinteria Sector		Carpinteria SB
		La Purisima Sector		Chumash Painted Cave SHP
				La Purisima Mission SHP
				Point Sal SB
		Santa Barbara Sector		El Capitán SB
				Gaviota SP
				Refugio SB
		Ventura Sector		Emma Wood SB
				Mandalay SB
				McGrath SB
San Buenaventura SB				
Colorado Desert District	Anza-Borrego Sector	Anza-Borrego Desert SP	Anza-Borrego Desert SW	
			Santa Rosa Mountains SW	
	Montane Sector	Cuyamaca Rancho SP	Ah-Ha-Kwe-Ah-Mac/Stonewall Mine CP	
			Cuish-Cuish (East Mesa) CP	
			Cuyamaca Meadow NP	
			Cuyamaca Mountain SW	
			Kumeyaay Soapstone CP	
			Pilcha (West Mesa) CP	
	Palomar Mountain SP	Doane Valley NP		
	Salton Sea Sector		Indio Hills Palms	
Picacho SRA				
Salton Sea SRA				

District	Sector	Unit	Subunit	
Diablo Vista District	Bay Sector	Albany SMR		
		Candlestick Point SRA		
		(Cowell Ranch / John Marsh Home) SHP		
		Eastshore State Park SS		
		Emeryville Crescent SMR		
		Lake Del Valle SRA		
		Mount Diablo SP		Civilian Conservation Corps CP
		Robert W. Crown Memorial SB		
	Silverado Sector	San Bruno Mountain SP		
		Annadel SP		
		Bale Grist Mill SHP		
		Benicia Capitol SHP		
		Benicia SRA		Southampton Bay Wetland NP
		Bothe-Napa Valley SP		
		Jack London SHP		
		Petaluma Adobe SHP		
		Robert Louis Stevenson SP		
		Sugarloaf Ridge SP		

District	Sector	Unit	Subunit

INDEX

Listed are the names of those parks and properties that appear in this report. All are today or in some way have been historically associated with the California State Park System. This index allows the reader to quickly find every appearance of each such listed name and in many instances cross reference units that are linked in some way.

It also includes the different names and classifications which many of the units had in the past. It includes the names of many park projects that were ultimately unsuccessful, and provides the names of certain additions to parks, additions which were important in the System's evolving history.

Note that if an entry is mentioned more than once on a page, that page number is not repeated but appears only once, so that multiple references must be searched for.
