Healthy Parks, Healthy People - PROGRAMS

Innovative Outdoor Fitness Programs in the East Bay Regional Park District

Trails Challenge
The East Bay Regional Park District's Trails Challenge aims to get you in a good mood, self-paced hiking program encourages people to get in outdoors while they explore the region's scenic parks and trails.

The program comes with an interactive map, self-paced audio guide, and more to come. A handy app allows hikers to track their progress and share their adventures with friends and family.

The Trails Challenge program was recognized in 2010 as the California's Outstanding Trails Program by the California Department of Recreation and Park Districts in the Best Recreational Program.

Ride Challenge
The Ride Challenge, for children ages 5-12, promotes fun outdoor activities, such as hiking, a trail, mountain or water, cycling under the stars, reading books, or playing in a park. The program is based on the California Children's Outdoor Bill of Rights, which recognizes the outdoor activities that would benefit every child.

Each regional park creates a healthy and outdoor activity that is fun, competitive and has fun of the fun activities in the hood, the child receives a commemorative patch.

Greetings from
