COUNTY: El Dorado

DESCRIPTION OF THE NATURE AND PURPOSE OF PROJECT: Upgrade existing facilities at Eagle Point Campground in Emerald Bay State Park to comply with the Americans with Disabilities Act (ADA) and meet requirements in the "California State Parks Accessibility Guidelines". Work will:

- Excavate an approximately (approx.) 4" deep by 10 sqft area to install a concrete pad and excavate up to 24" in diameter hole for the water drain well at three existing water stations and adjust station fixtures and heights;
- De-compact, recontour, and add approx. 80 cubic feet of rock to repair an approx. 100' long by 4' wide path from campsites to the restroom;

At five campsites - 3 in the upper loop and 2 in the lower loop (each site is approx. 1000 sqft):

- Remove the barbeques, food lockers, tables, table anchors, and fire rings, if required, to configure each campsite for ADA access;
- To reinstall: excavate 5 holes up to 24" deep and 6" wide to reinstall the barbeques, 20 holes up to 24" deep and 3" wide to reinstall the food lockers (4 legs), 1' diameter hole for each table anchor, and a 3' diameter by 9" deep area for the fire rings;
- Repair two wooden shelving units;
- Excavate up to 4" wide by 6" deep and approx. 480' long to install wood borders either to replace and/or add new borders around each campsite;
- Excavate up to 6" of material from the high to low sides of the campsites to level, and if needed, add up to 6 inches of new rock (approx. 24 cubic yards per site) to achieve a level area;
- Remove the asphalt from the approx. 18' x 22' parking spaces and add rock if needed to level, pour new asphalt and strip.
