

## **Notice of Availability and Intent to Adopt an Initial Study/Mitigated Negative Declaration**

**Document Type:** Mitigated Negative Declaration      **Date:** February 14, 2003

**Project Title:** Point Dume State Beach – Boardwalk Construction

**Project Location-Specific:** Point Dume State Beach

**Project Location – Cities:** Malibu      **Project Location-County:** Los Angeles

**Description of Project:** The proposed Boardwalk Construction Project is at Point Dume State Park in the Angeles-Malibu Sector. The project consists of installing approximately 1100 linear feet (LF) of accessible boardwalk. Approximately 450 LF will be constructed along an existing trail. The entire new boardwalk will be ADA accessible with ramps and continuous handrails, viewing platforms, rest areas, and benches similar to the existing boardwalk and view deck. The elevated boardwalk will consist of approximately 210 posthole footings that are 12” in diameter and range in depth from 2’ minimum to 6’ maximum. Increased use and changes in recreational patterns have resulted in facilities that are inadequate or degraded by existing demands. This project will improve visitor services, improve public interpretation of the resource values, protect public health and safety, bring facilities into compliance with the American with Disabilities Act (ADA) and current codes, protect and improve natural resources and park aesthetics, and support continued use and maintenance of park facilities.

**AN INFORMATIONAL PUBLIC MEETING**, during which the proposed Boardwalk Construction project and its scope will be presented on February 25, 2003 at the Point Dume elementary school, 6955 Fern Hill Drive Malibu, CA 90265, between the hours of 6:00pm and 9:00pm. Representatives of the Department of Parks and Recreation will be present at this meeting, and will be available to discuss the project proposal, its potential environmental effects, and proposed mitigation.
