

## HRSP Road and Trail Management Plan

### Stakeholder Meeting 7: Private Commercial/ Public Services

12/14/2010

5 attendees

#### Questions and comments

Any plans for the Weott community services district water system road?

- No plans yet
- Concerns about access and maintaining current access

PG&E concerned about power line access

- any issues w/ power company access?
  - yes, some larger issues being dealt with at the district level regarding how entities working in the park are expected to operate

Can others access GIS data?

- yes, public domain. However, our data is preliminary and not complete, so not released yet.

Do we need/ want locations of power lines/ poles, water lines/supplies?

- Some info already known, others are obtained on need to know basis for individual projects.
  - We have some rough idea of locations of water lines, but do not have specific/accurate locations.

Will Grasshopper and the lookout access be considered in plan?

- yes, since it is a part of the existing transportation system

Will cost be considered in the plan?

- not really, difficult to predict the future cost of projects over 20+ years

Water rights at Pete Creek

- Myers Flat Mutual Water System would like to get up there to replace their system, but the trail is gone after the Canoe fire. Existing water rights and easements not considered in the plan, but roads/trails to access those areas could be.

Will the little bridge at High Rock be fixed?

- funding is an issue
