

WANT TO HELP?

HERE'S HOW:

1 Bring your own bag to do more. If you don't have a bag or safety gloves, ask a park staff member for supplies.

2 Collect litter you find in the park.

3 Never touch sharp objects. Watch but do not touch animals.

4 Show a park staff member your bag of litter to receive your rewards for keeping parks clean and animals safe!

5 Recycle ♻️ anything you can!

CHECKLIST:

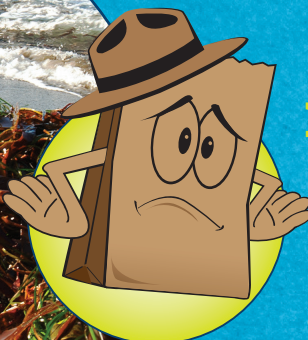

- ☐ Plastic bottles _____
- ☐ Food wrappers _____
- ☐ Food litter _____
(candy, cookies, bread, etc.)
- ☐ Paper/cardboard products _____
- ☐ Cigarette butts _____
- ☐ Aluminum cans _____
- ☐ Other _____

AND FACTS
INSIDE!

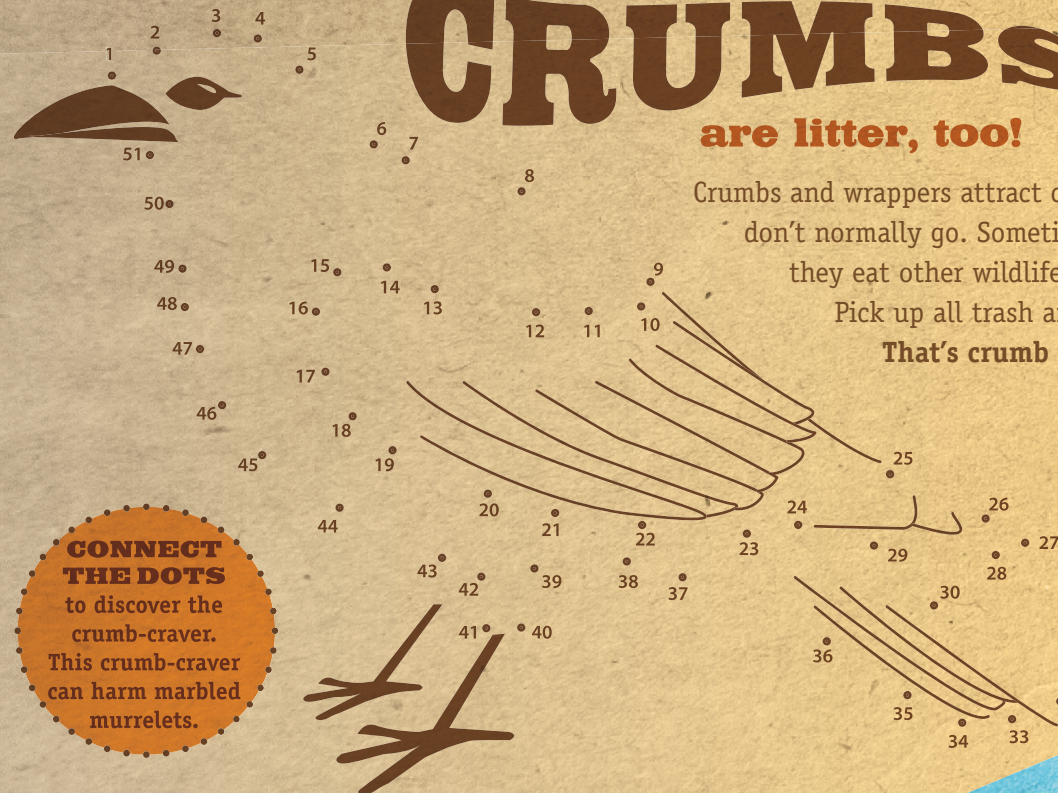

HOW DOES LITTER HURT OUR WILDLIFE?

- Litter is trash that hasn't been thrown away in the right place. It makes our parks look bad, and it can hurt wildlife.
- Litter can get blown or washed into creeks, rivers, and oceans—harming underwater life.
- Some animals mistake litter for food and eat it, which can make them sick.
- Sometimes animals try to play with the litter, and it gets caught on their bodies.

CRUMBS are litter, too!

Crums and wrappers attract crumb-craving critters to areas they don't normally go. Sometimes when they get to a new place, they eat other wildlife. Keep animals healthy and wild. Pick up all trash and food, even the smallest crumbs. That's crumb clean!

CONNECT THE DOTS to discover the crumb-craver. This crumb-craver can harm marbled murrelets.

Unscramble the letters to identify this crumb-craver.
NRAEV _ _ _ _ _

Answer: RAVEN

I'm curious and playful, and I can get tangled in trash.

CALIFORNIA SEA LION

GRAY WHALE

Gray whales migrate as far as 10,000 miles, one of the longest animal migrations in the world! But this whale has floating trash in the way.

Crumb-cravers are eating my eggs!

MARbled MURRELET

BLACK BEAR

A little litter gets me into big trouble.

SAN JOAQUIN KIT FOX

I'm threatened by coyotes that love scavenging through trash.

DESERT TORTOISE

Crumb-cravers threaten my young.

SNOWY PLOVER

WHAT DOES LITTER DO TO THESE CREATURES?

Help me through this maze, avoiding litter.

Trash-lovers find my nest, eat my eggs, and hunt my chicks.
