

Act Now to Help Burned Areas Recover!

Explore Open Areas and Invest in the Park's Future

When you stay out of closed areas you:

- **Protect** the fragile, exposed soil from eroding into the streams.
- **Prevent** native plant seeds from being crushed or losing their ability to re-grow.
- **Stop** invasive weeds from choking out native plants that are essential to the survival of birds, deer and other wildlife.
- **Respect** our shared cultural heritage and help protect fragile Native American and historical archeological sites.

Thank you for the actions you take to protect Trione-Annadel
State Park!
