

DONNER MEMORIAL STATE PARK

WELCOME! Donner Memorial State Park (SP) is located in the scenic Sierra Nevada mountain range at an elevation of about 6,000 feet. Glaciers dominated the crest of the Sierra Nevada through much of the past million years, carving out the Truckee Basin, where the park is located. This legendary alpine park offers summer camping, picnicking, kayaking, canoeing, fishing, and hiking. During the winter, visitors can cross-country ski, snowshoe on trails, and play in the snow. Visitors are welcome year-round to visit the famous Pioneer Monument (California Historical Landmark #134), built in 1918 by the Native Sons of the Golden West to commemorate the California emigrants traveling west during the 1800s.

The visitor center features compelling exhibits that illuminate the traditional lifeways of the Washoe people, emigrant experience, Donner Party, Chinese railroad workers, and early motoring adventures over Donner Pass.

The Washoe people are the original stewards of this land since time immemorial and refer to Donner Lake as Behé-zin wí-giya (beh-heh-zing wee-gee-ah) meaning, "Little Eye".

Pets—Dogs are allowed on the Lakeside Interpretive Trail, Splitrock Trail, fire roads, campgrounds, and the shore of Donner Lake, except for China Cove Beach. Dogs must always remain on a 6-foot (maximum) leash and are not allowed in the visitor center or on the Nature Trail. Dogs are not allowed on designated ski trails when there is snow.
