

TORREY PINES STATE NATURAL RESERVE

One of the more common complaints in the summer time at Torrey Pines is the parking. When the South Beach lot fills up, we close the entrance and visitors need to head to North Beach for parking. **There is now a flashing light on the top of the kiosk to alert visitors when the gate is closed.** This early alert system will enable visitors to go directly to the North Beach parking lot and avoid having to make a u-turn at the closed entrance to the South Beach lot. Once you know exactly where to look, you can even see the light from the top of High Bridge or Carmel Valley Rd. See map below for some locations to look for the flashing light.

Torrey Pines is one of the most popular State Parks in San Diego. As a result of this, Torrey Pines becomes very crowded during the summer time. The hours between 10:00 AM - 1:00 PM tend to be the busiest hours of the reserve, so it is best to plan around these times!
