## Granite Bay Low Water Boat Launch Ramp Closed

Effective immediately, for public safety and property damage considerations, the low water boat launch at Granite Bay is closed until further notice. The water level has dropped below the launch ramp making safe launching problematic. The launch ramp will reopen as soon as the water returns to a safe level.

“We have approached one of the lakes lowest water levels in several years being at 369.15 vertical feet at Folsom Dam. Our continued low rainfall so far this year has not helped the conditions. As the lake recedes, other hazards present themselves. We ask all boaters to observe the 5 mph speed limit and keep a close eye for exposed hazards,” said Dan Tynan, Folsom Lake Sector Superintendent. “We urge people to take all necessary precautions to be safe while on the water.”

Folsom Lake State Recreation Area Office is at 7755 Folsom-Auburn Road in Folsom. For more information, call (916) 988-0205.
