Donner State Park Paving Project to Temporarily Close Park Entrance

As part of the ongoing construction of the new Donner Memorial State Park Visitor Center, improvements to the park entrance are scheduled, which will cause interruptions in service and closures. The main entrance to the park on Donner Pass Road is scheduled to be closed between May 1st and May 15th for a paving project.

During this period, the park museum will also be closed. The campgrounds and day use are closed for the winter and expected to open for the season on May 24th.

During the closure, access to the park will be limited to pedestrians and bicyclists using alternative entrances.

For further information about Donner Memorial State Park and this project, please call the park at 530-582-7892
