STATE PARKS **FORWARD**

The biggest expansion of State Parks in decades.

Feather River Park shoreline

FEATHER RIVER PARK

(New park near Olivehurst, Yuba County)

WHY IT'S NOTEWORTHY

Sitting on nearly 2,000 acres along the Feather River, the park offers multiple benefits, including a floodplain designed to take on water in high-flow years and natural habitat in selected restored areas.

WHY IT MAKES A GREAT STATE PARK

This would be the first state park in Yuba County (population approximately 85,000), enhancing access to high-quality recreation in an underserved part of the state. The park offers numerous recreational opportunities, including a boat launch and a riverside beach.

Trail at Feather River Park

STATE PARKS FORWARD

Introducing *State Parks Forward*, a bold vision adding three new state parks while growing existing parks by 30,000 acres by the end of the decade. Simply put, *State Parks Forward* means more parks in more places.
