Interpretive Centers, the History, Design, and Development of Nature and Visitor Centers, by Michael Gross and Ron Zimmerman

This visually stunning, large format book takes the reader through an eye-opening journey through the world's best visitor centers while illustrating the four dimensions of modern visitor center design:

- Be in Harmony With the Site
- Provide for People
- Be Economical
- Be Sustainable

Interpretive centers play an essential role in connecting people with sacred places. This book showcases a multitude of ways to forge such connections while respecting the integrity of the site.

- I highly recommend Interpretive Centers as a tool for anyone who is involved in the planning, design, or remodeling of visitor centers.
- Retail price: \$58.95, paper ISBN #IN-11000, plus shipping
- To order or ask questions, call, write or fax:
