PROJECT TITLE: Ranch Center Road Repair (15.16 A30)
LOCATION: Point Mugu State Park **COUNTY:** Ventura
DESCRIPTION OF THE NATURE AND PURPOSE OF PROJECT:

This project would repair approximately 2.1 miles of Ranch Center Road from the junction of Sycamore Canyon Road to Ranch Center, creating a sustainable, low maintenance surface.

The project is needed, since the road surface has numerous pot holes and the asphalt has failed due to age and general wear and tear. The road is used for emergency fire access as well as service activities. The public uses the road as a multi-use trail including mountain biking and hiking.

The scope of this project includes pulverizing the existing 4" to 6" of asphalt and leaving it in place as base material. The next step would be the placement of a 4" to 6" lift of high plasticity, graded ¾" minus surface aggregate over the pulverized asphalt base. The road surface would be outsloped 2%-4% and crowned 3%-4% where applicable.
